GOVERNMENT OF PUERTO RICO
PUERTO RICO PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU

IN RE: INTERCONNECTION REGULATIONS	**CASE NO.:** NEPR-MI-2019-0009 NEPR-MI-2018-0008 **SUBJECT:** Request for Information

RESOLUTION AND ORDER

I. Relevant Background

On July 13, 2026, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("July 13 Resolution") containing a Draft Distributed Generation and Microgrid Interconnection Regulation ("Revised Preliminary Draft"). Through the July 13 Resolution, the Energy Bureau invited all stakeholders and interested persons to provide their comments and feedback on the Draft Regulation on or before August 14, 2026 and scheduled two (2) Virtual Stakeholder Workshops for August 25, 2026 and September 21, 2026 to evaluate and address stakeholders' comments on Revised Preliminary Draft and seek consensus and solutions that are aligned with public policy.

On September 15, 2026, the Energy Bureau issued a Resolution and Order ("September 15 Resolution") containing the agenda for the September 21, 2026 Virtual Stakeholder Workshop and provided a rulemaking schedule with preliminary dates for the second draft of the Interconnection Regulation, public comment opportunities, and the fourth stakeholder workshop.

On October 16, 2026, the Energy Bureau issued a Resolution and Order ("October 16 Resolution") containing the Second Draft of the Distributed Energy Resources Interconnection Regulation ("Second Draft") and invited all stakeholders and interested persons to provide comments on or before November 6, 2026. On November 13, 2026, the Energy Bureau issued a Resolution and Order ("November 13 Resolution") containing a notice of a revised schedule due to the large number of comments received and the complexity of the issues therein.

II. Request for Information ("ROI")

As the Energy Bureau reviews the comments received on the Second Draft, it has determined that it requires additional information from LUMA to support the setting of the Simplified Application Fee. The Energy Bureau **ORDERS LUMA** to, within seven (7) business days from the notification of this Resolution and Order, file its response to the following questions.

1. Over the past five years, what has been the average per system administrative cost of an application from a system under 25 kW? Please detail by year and provide average costs (mean and median), a line-item breakdown of cost components, and average (mean and median) time from receipt of application to completion of processing.

2. Over the past five years, what has been the average (mean and median) upgrade costs for systems under 25 kW? Please detail by year and provide the count and percent of systems that have triggered an upgrade, a breakdown of the upgrade costs by cost categories including, but not limited to distribution transformer, secondary cable, and other costs.
