**PREPA'S RESPONSE TO THE JULY 11th ITEM IN THE
COMMISSION'S THIRD REQUIREMENT OF INFORMATION**

TO: THE PUERTO RICO ENERGY COMMISSION
Through the General Counsel's Office via

COMES NOW the Puerto Rico Electric Power Authority ("PREPA"), and submits its response to the one item due on July 11, 2016, under the Puerto Rico Energy Commission's (the Commission) 3rd Requirement of Information, dated July 7, 2016 (the 3rd ROI).¹ For ease of reference, the request is quoted, in bold, before its response.

A. PREPA'S Organizational Chart

1. **Please provide, on or before July 11th, 2016, a chart detailing PREPA's organizational structure, identifying all key management positions, departments or directorates and detailing the hierarchical structure currently in place.**

The following response was provided by Sonia Miranda Vega, Director of the Planning and Environmental Protection Directorate of PREPA.

¹ PREPA makes a general, standing objection to any request for information or documents to the extent, if any, that it calls for any document or information that is not subject to disclosure or discovery because it is privileged, attorney work product, or subject to any other exemption from disclosure or discovery.

PREPA is providing two attached documents in response to this request. The first document is an official corporate organizational chart of PREPA that was approved on July 9, 2012 by the then Executive Director, engineer Josue Colón Ortiz and the Governing Board. The second document is a draft version of the actual corporate organizational chart. PREPA is submitting two documents because since 2013, PREPA is in a process of restructuring in which has evaluated the organizational structure and this process is not yet completed. This process has prevented the corporate organizational chart to be evaluated and approved by PREPA's Governing Board.
