Re: PREPA / Initial Rate Case  
Submission of Information Prior to Filing (4<sup>th</sup> Submission)

Dear President Carbó and Commissioners:

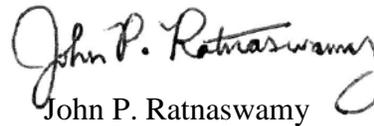

Section 3.02 of the New Regulation on Rate Filing Requirements for the Puerto Rico Electric Power Authority's First Rate Case ("Regulation 8720") of the Puerto Rico Energy Commission (the "Commission") requires the Puerto Rico Electric Power Authority ("PREPA") to submit certain materials to the Commission prior to PREPA's filing its formal application for approval of new rates.

In compliance with Section 3.02(A) of Regulation 8720, PREPA submits with this letter, any and all reports made by PREPA's Chief Restructuring Officer to PREPA's Governing Board regarding its restructuring ("CRO Reports"). Also included is a production log which identifies the information that has been redacted and identifies the reason for the redaction of confidential information as Attorney-Client Privileged ("AC"), Business Confidential ("BC"), and/or Critical Energy Infrastructure Information ("CEII") pursuant to Section 4.02 of Regulation 8720. We have provided a Dropbox link to the electronic files which include the following:

- "CRO Reports Set #1 "Redacted Commission's Eyes Only" includes unredacted versions of BC and CEII. AC information has been redacted from Set #1.
- "CRO Reports Set #2 "Redacted Confidential Non-Disclosure Agreement Required for Access" in which AC, BC, and CEII information has been redacted. Access to Set #2 is subject to Section 4.02(C) of Regulation 8720 (*i.e.* requires an executed confidentiality agreement/non-disclosure agreement and compliance with Commission protocol).

Each page of these documents bears an alpha-numeric bates labeled stamp that indicates it is a pre-filing material (“PF”) and the subsection of Section 3.02 under which it is submitted (*i.e.* “A”). Thus, the documents submitted herewith are bates labeled PFA 000001-001055.

Sincerely,

John P. Ratnaswamy
