

**COMMONWEALTH OF PUERTO RICO
PUERTO RICO ENERGY COMMISSION**

IN RE:

PUERTO RICO ELECTRIC POWER
AUTHORITY REVITALIZATION
CORPORATION,

Petitioner.

NO. CEPR-AP-2016-0001

SUBJECT: Supplemental Response
in Compliance to Commission Order
and 3rd Request for Supplemental
Information

**THE PREPA REVITALIZATION CORPORATION'S
SUPPLEMENTAL SUBMISSION OF INFORMATION IN COMPLIANCE WITH
THE COMMISSION'S RESOLUTION AND ORDER OF MAY 9, 2016**

Comes now the Petitioner Puerto Rico Electric Power Authority Revitalization Corporation (the "Corporation") and respectfully submits this supplemental response and the electronic information identified herein to the honorable Puerto Rico Energy Commission (the "Commission") in further compliance with the Commission's Resolution and Order of May 9, 2016 (the "May 9 Order") and the third request for clarification made therein.

The May 9 Order set forth specific questions in Attachment A thereto and directs the Corporation to respond. May 9 Order at 2. On May 16, 2016, the Corporation timely filed *The PREPA Revitalization Corporation's Submission of Information in Compliance with the Commission's Resolution and Order of May 9, 2016* ("May 16 Response") in response. The May 16 Response addressed the Commission's Questions and provided all of the data requested by the large majority those Questions. However, notwithstanding the best efforts of the Corporation and of PREPA (from whom the Corporation's requested data), certain data was not yet available and complete on May 16. The May 16 Response identified where additional information would be provided and this Supplemental Response includes the Corporation's remaining responses, including all remaining data sought by the May 9 Order.

As with its May 16 Response, capitalized terms have the meanings defined in the Revitalization Act and the Petition. And, by responding, the Corporation does not concede that all of the inquiries are germane to the statutory jurisdiction of the Commission or the findings the Commission is required or authorized to make under the Puerto Rico Electric Power Authority (“PREPA”) Revitalization Act, Act 4-2016 (the “Revitalization Act”). Also, the Corporation does not waive any legal arguments or waive or limit the right to raise other and further legal theories, arguments, and authorities, in briefs or otherwise, including in response to arguments, evidentiary submissions, pleadings, and briefs of other parties and in response to the continued evolution of the record.

The Corporation’s Supplemental Responses do not include or rely upon any information or materials that are legally privileged or protected from discovery by the work product doctrine. Where the Commission asks about legal theories and claims, the Corporation has responded in a manner that does not disclose privileged information or legal work product. No documents were omitted or redacted on such grounds, and no confidential treatment is sought.

QUESTIONS AND SUPPLEMENTAL RESPONSES

VI. *Please provide copies of the contracts identified in response to III.B.2: Public Finance Management (PFM), Navigant, Rooney Rippie & Ratnaswamy LLP, Sidley Austin LLP, Quinones & Arbona, PSC, Millstein & Co., Pietrantonio Mendez & Alvarez LLC. If there is also a contract with Cleary Gottlieb, please provide.*

SUPPLEMENTAL RESPONSE: The Corporation was able to obtain and serve copies of the requested contracts in its original May 16 Response.

VII. *In your response to II.A.2 you stated: "... To the Corporation's knowledge, PREPA's financial plans do not currently include a plan for issuance of additional Restructuring Bonds issued beyond those identified in the Petition and the proposed Restructuring Resolution (Attachment 1.00). However, PREPA's plans do include investments (e.g., Aguirre Off-Shore Gas Port) that could be financed, in whole or part, via the issuance of such additional Bonds."*

- C. *Are any costs associated with AOGP included in bonds that have already been issued and are scheduled to be exchanged or defeased pursuant to the Restructuring Resolution?***

SUPPLEMENTAL RESPONSE: No. PREPA has expended approximately \$47 million in initial costs in connection with the AOGP project, primarily related to onshore conversion. The majority of this amount (about \$38 million) has been expended on preparing Aguirre units 1 and 2 for conversion from oil to gas. The remaining amount has been spent on permitting and engineering related items.

All AOGP related expenses were funded out of then-existing cash. PREPA has not issued any bonds with the intent of using proceeds to fund AOGP expenditures. While all cash on hand is theoretically fungible in a sense, the most recent PREPA bond issuances were in 2012 and 2013, well in advance of any expenditure on AOGP. Also, neither issuance identified the payment of AOGP costs as a use of proceeds.

- XI. *Identify and provide PREPA's actual customer billing information for the most recent 12-month period including: (1) identification of each billing cycle, (2) the number of bills issued by rate in each billing cycle, (3) the number of kWh billed in each billing cycle by rate, (4) the number of kWh attributed to each rate that is billed on a monthly charge basis.***

SUPPLEMENTAL RESPONSE: See Appendix XI for the requested billing information for May 2015 through April 2016. All kWh for all rates are billed on a monthly basis.

- XV. *Refer to the Corporation Exhibit 6.03 Excel file. Refer to the tabs containing calculations of the residential and non-residential payment lags.***

- B. *How were the 1,327,733.25 residential "Historical Period Service Agreements" actually billed by PREPA during the historical period?***

SUPPLEMENTAL RESPONSE: The referenced value (1,327,733) is the FY 2015 average customer service agreement count, which was used as the monthly amount for each

month in FY 2015. The customers represented by the “Historical Period Service Agreements” were billed on a cycle basis, and billing dates included weekends and holidays. During Fiscal Year 2015, residential billing occurred on 349 of the 365 days of the year. Please refer to Appendix XV for daily billing data. This is raw unadjusted billing data and does not include typical accounting adjustments such as re-bills and canceled bills related to FY 2015.

D. How were the 901,304,874 non-residential "Historical Period kWh" actually billed by PREPA during the historical period?

SUPPLEMENTAL RESPONSE: The referenced value (901,304,874) is the non-residential kWh (excluding CILT) billed in July, 2014, the first month of the FY 2015 12-month period. In July, 2014, non-residential customers (excluding CILT) were billed on 29 of the 31 days. During Fiscal Year 2015, total non-residential billing occurred on 332 of the 365 days of the year. Nonresidential billings included weekends and holidays. Please refer to Appendix XV for daily billing information. This is raw unadjusted billing data and does not include typical accounting adjustments such as re-bills, and canceled bills related to FY 2015.

XXI. Refer to step 6 on Attachment 1.00, Appendix 2, Calculation Methodology and Adjustment Mechanism.

C. What rates are billed by PREPA in each billing cycle?

SUPPLEMENTAL RESPONSE: Please refer to the Response to Question XI, above, particularly Appendix XI.

WE HEREBY CERTIFY that the foregoing was sent via email to: José Pérez-Velez, Esq., (jperez@oipc.pr.gov); Coral M. Odio-Rivera, Esq., (codiot@oipc.pr.gov); Marc G.
