Re: PREPA / Initial Rate Case  
Submission of Information Prior to Filing (2<sup>nd</sup> Submission)

Dear President Carbó and Commissioners:

Section 3.02 of the New Regulation on Rate Filing Requirements for the Puerto Rico Electric Power Authority's First Rate Case ("Regulation 8720") of the Puerto Rico Energy Commission (the "Commission") requires the Puerto Rico Electric Power Authority ("PREPA") to submit certain materials to the Commission prior to PREPA's filing its formal application for approval of new rates.

In compliance with paragraph (C) of that Section, PREPA submits with this letter, its Business Plan dated June 1, 2015. Each page of this document bears an alpha-numeric bates labeled stamp that indicates it is a pre-filing material ("PF") and the subsection of Section 3.02 under which it is submitted (*i.e.* "C"). Thus, the document submitted herewith is bates labeled PFC 000001-000046. This document is not confidential, nor has it been redacted on account of any claim of privilege.

PREPA will provide the balance of the information required by Section 3.02 of Regulation 8720 in a subsequent submission or submissions in advance of its formal filing.

Sincerely,

E. Glenn Rippie
