PROMOVIDO

CASO NÚM.: CEPR-QR-2015-0004

ASUNTO: Resolución Final; Estándares sobre Medición Neta y Procedimientos de Interconexión de Generadores Distribuidos; Investigación sobre equipos y componentes necesarios para la interconexión.

RESOLUCIÓN FINAL

El 18 de octubre de 2016, el Oficial Examinador, Lcdo. Ariel O. Caro Pérez, rindió ante la Comisión de Energía de Puerto Rico (“Comisión”) su Informe final sobre el caso de epígrafe. Luego de hacer un recuento de los eventos procesales más relevantes y significativos, el Informe establece que el 17 de octubre de 2016, fecha en la que comenzaría la vista en su fondo, las partes lograron una estipulación que puso fin a todas las controversias en el caso. A esos fines, las partes sometieron ante la consideración de la Comisión un acuerdo de transacción (“*Settlement Agreement*”¹) que contiene la totalidad de los acuerdos y que resuelve la totalidad de las controversias entre éstas.

En su Informe, el Oficial Examinador recomienda que la Comisión acoja el acuerdo y emita una Resolución Final de conformidad con lo pactado. Evaluado el Informe del Oficial Examinador, así como el acuerdo de transacción sometido por las partes, esta Comisión APRUEBA el acuerdo de transacción y en consecuencia incorpora y hace formar parte de esta Resolución los términos y condiciones pactados por las partes. Ver Anejo. De conformidad, se decreta **el archivo con perjuicio** de la querella, reteniendo esta Comisión jurisdicción para asegurar el cumplimiento de lo pactado.

Conforme a la Sección 11.01 del Reglamento 8543², y la Sección 3.15 de la Ley Núm. 170 de 12 de agosto de 1988, según emendada, conocida como Ley de Procedimiento Administrativo Uniforme (“LPAU”), cualquier parte afectada por esta determinación podrá solicitar la reconsideración dentro de veinte (20) días de la notificación y archivo en autos de esta Resolución. La solicitud a tales efectos debe ser presentada mediante entrega personal en la Secretaría de la Comisión.

La Comisión tendrá quince (15) días, contados desde la fecha de presentación de la solicitud de reconsideración para considerarla. Si la rechazare de plano o no actuare dentro

¹ El documento presentado por las partes fue suscrito en el idioma inglés.

² Reglamento de Procedimientos Adjudicativos, Avisos de Incumplimiento, Revisión de Tarifas e Investigaciones.

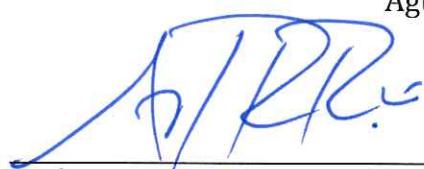

de los quince (15) días antes dispuestos, el término para solicitar revisión judicial comenzará a transcurrir nuevamente en la fecha en que se notifique la denegatoria o desde que expire el término de quince (15) días, según sea el caso. De la Comisión acoger la solicitud, el término para solicitar revisión comenzará en la fecha en que se archive en autos copia de la notificación de la resolución de la Comisión resolviendo definitivamente la solicitud de reconsideración. Tal resolución deberá ser emitida y archivada en autos dentro de los noventa (90) días siguientes a la radicación de la solicitud de reconsideración. Si la Comisión acoge la solicitud de reconsideración, pero deja de tomar alguna acción con relación a la misma dentro de dicho término de noventa (90) días, perderá jurisdicción sobre la misma y el término para solicitar revisión judicial empezará a contarse a partir de la expiración de dicho término de noventa (90) días, salvo que la Comisión, por justa causa y dentro de dichos noventa (90) días, extienda el término para resolver por un periodo que no excederá de treinta (30) días adicionales.

De no optarse por el procedimiento de reconsideración antes expuesto, cualquier parte adversamente afectada por lo dispuesto en esta Resolución podrá presentar un recurso de revisión judicial ante el Tribunal de Apelaciones dentro del término de treinta (30) días contados a partir de la fecha de archivo en autos de la notificación de esta Resolución. Copia de cualquier solicitud de revisión judicial deberá ser notificada a la Comisión y a las demás partes en el presente procedimiento dentro del término para solicitar revisión judicial. La presentación del recurso de revisión judicial se regirá por las disposiciones aplicables de la LPAU y el Reglamento del Tribunal de Apelaciones.

Defendant

NO. CEPR-QR-2015-0004

MATTER: SECTIONS 2.9 AND 5.3 OF THE
 PUERTO RICO ENERGY
 TRANSFORMATION AND RELIEF ACT,
 ACT NO. 57 OF MAY 27, 2014;
 REGULATION TO ESTABLISH THE NET
 METERING PROGRAM; REGULATION FOR
 THE INTECONNECTION GENERATORS
 WITH THE ELECTRICAL DISTRIBUTION
 SYSTEM; PUERTO RICO ENERGY
 COMMISSION AMENDED ORDER NO.
 CEPR-MI-2014-0001, DATED MARCH 20,
 2015

SETTLEMENT AGREEMENT

WHEREAS, on December 14, 2015, Sunnova Energy Corporation ("Sunnova") filed this Administrative Complaint CEPR-QR-2015-0004 ("Administrative Complaint") before the Puerto Rico Energy Commission ("Energy Commission") against the Puerto Rico Electric Power Authority ("PREPA") (jointly, "Parties");

WHEREAS, among others, Sunnova alleged that PREPA engages in delays in processing interconnection applications for consumers with distributed generation systems, specifically in connection with the inspection of installed systems, requiring the changing of meters, and the execution of net metering agreements;

WHEREAS, among others, PREPA alleged that it diligently evaluates interconnection applications with limited resources, that it modified its procedure to change meters, and that in-person execution serves to orient clients on net metering terms and conditions; and

WHEREAS, in order to avoid the expense and uncertainty involved in the continuation of this litigation, the Parties wish to resolve and settle the Administrative Complaint.

NOW THEREFORE, in consideration of the mutual covenants and promises contained herein, the Parties hereby agree and stipulate as follows:

A. Substitution of Meters

1. Article 6 of the recently promulgated Act No. 133 of August 5, 2016 ("Act 133-2016") provides as follows:

"In cases of renewable energy systems interconnected to [PREPA's] grid, meter installation shall be done by [PREPA] on the base of the existing meter at the time of submittal of the interconnection application."¹

2. Consistent with the foregoing provision of Act 133-2016, PREPA shall substitute existing meters with meters with remote reading capabilities upon issuance of the evaluation letters approving Sunnova distributed generation systems. To the extent any systems listed in Exhibit A of this Agreement do not include meters with net metering and remote reading capabilities, PREPA shall change such meters within fifteen (15) business days of the date hereof. With respect to Sunnova distributed generation systems that are already past the evaluation letter stage but not included in Exhibit A, PREPA shall substitute the existing meters for meters with net metering and remote reading capabilities no later than fifteen (15) business days after the filing of the certifications referenced in paragraph 5 hereof; provided, however, that the foregoing shall not be understood as a waiver by Sunnova of any rights under Act 133-2016.

B. PREPA Inspections

3. Article 8 of Act 133-2016 provides as follows:

"An electrical engineer or master electrician, duly licensed and authorized to practice in Puerto Rico, shall certify that the electrical installation of the distributed generation system complies with the specifications required by [PREPA] and Energy Commission regulations and that such installation was completed in accordance with the laws, regulations, and standards applicable to the interconnection of distributed generation to [PREPA's] transmission and distribution system. Once such certification is submitted to PREPA, the applicant may interconnect and operate the distributed generation system with [PREPA's] electrical system, provided that such system does not exceed 10 kilowatts in generation capacity."²

¹ The Spanish text reads as follows: "En los casos de sistemas de energía renovable interconectados a la red de la [Autoridad de Energía Eléctrica], la instalación del Medidor deberá ser realizada por la Autoridad en la base del contador ya existente al momento de la solicitud de interconexión".

² The text in Spanish reads: "Un ingeniero electricista o un perito electricista, ambos colegiados y licenciados, deberá certificar que la instalación eléctrica del sistema de generación distribuida cumple con las especificaciones requeridas por reglamentación de la Autoridad y la Comisión de Energía, y que la misma fue completada de acuerdo con las leyes, reglamentos y normas aplicables a la interconexión de generación distribuida al sistema de transmisión y distribución de la Autoridad. Una vez sometida dicha certificación a la Autoridad, el proponente podrá interconectar y operar sus sistema de generación distribuida con el sistema eléctrico de la Autoridad, siempre y cuando al mismo no sobrepase la capacidad de generación de 10 kilovatios".

4. Consistent with the foregoing provision of Act 133-2016, PREPA shall not require the inspection, as a condition for interconnection, of the 658 cases of Sunnova's distributed generation systems listed in Exhibit A of this Agreement, which is attached to and incorporated as part of this Agreement. All systems listed in said Exhibit have a capacity of less than 10kW and, as of October 5, 2016, had been properly certified by a licensed engineer or electrician, with such certifications already submitted to PREPA to be in compliance with PREPA and Energy Commission specifications, and whose construction and installation has been performed pursuant to PREPA interconnection laws, regulations, and standards. PREPA shall issue authorization to interconnect such systems within ten (10) business days of the date hereof.

5. Henceforth, PREPA will not require inspections for Sunnova distributed generation systems with a capacity of less than 10kW that have been properly certified by a licensed engineer or electrician to be in compliance with PREPA and Energy Commission specifications and whose construction and installation has been performed pursuant to PREPA interconnection laws, regulations, and standards, and PREPA will issue authorization to interconnect such systems within ten (10) business days of submission of the corresponding certifications.

C. Relocation of Meters

6. Article 6 of Act No. 133 provides as follows:

"[PREPA] may not, through regulation, technical order, directorate instruction, or through any other means impose additional requirements, reject applications, deny endorsements, or request relocations of the base of the existing meter, with the exception of cases in which a meter's current location does not comply with safety standards established in the National Electrical Code in effect. However, meters must be accessible, otherwise, customers shall, subject to coordination, permit necessary access to [PREPA] staff as required. [PREPA] shall temper any regulations in accordance with the provisions of this Act."³

7. Consistent with the foregoing provision of Act 133-2016, PREPA shall no longer require the relocation of meters in the 619 cases of distributed generation systems listed in Exhibit 6 of Sunnova's Second Motion for Partial Summary Judgment filed in this case and which Exhibit is attached hereto. None of the systems listed in said Exhibit 6 have been found to be in violation of National Electrical Code safety standards and, as of September 2, 2016, are pending interconnection because, according to PREPA, their meters need to be relocated. Said list is attached to and incorporated as part of this Agreement.

³ The Spanish text reads as follows: "La Autoridad de Energía Eléctrica no podrá, mediante reglamento, orden técnica, directriz del directorado o por cualquier otro medio, disponer requerimientos adicionales, rechazar la solicitud, negar el endoso, ni solicitar la relocalización de la ubicación de la base del medidor ya existente, con la excepción de aquellos casos donde la ubicación actual del medidor no cumpla con los estándares de seguridad establecidos por el Código Eléctrico Nacional vigente. Sin embargo, el medidor tiene que estar en un lugar accesible y, de no estarlo, el cliente estará obligado, previa coordinación, a permitir el acceso necesario al personal de [la Autoridad de Energía Eléctrica], según requerido por este. La Autoridad de Energía Eléctrica deberá atemperar cualquier reglamento de conformidad con las disposiciones de esta Ley".

8. Henceforth, PREPA shall not hold up, condition, or delay the approval of interconnection of any Sunnova distributed generation systems on the grounds that their meters are inaccessible and may only require the relocation of specific meters (which shall be individually identified) on the grounds that they do not comply with National Electrical Code safety standards.

D. Execution of Net Metering Agreements

9. Article 2.2 of Act 133-2016 provides as follows:

"[PREPA] shall create a website to permit the electronic filing of all documents required by current interconnection regulations, including Certifications of Inspection of Electrical Construction Works. Said website shall allow the monitoring of cases, the electronic signing of the Interconnection Agreement or Net Metering Agreement, and have the capability of providing online orientation and educational material to customers who wish to sign the Net Metering Agreement electronically. The applicant's electronic signature shall constitute formal acceptance of all terms and conditions of the Agreement and shall perfect the contract between [PREPA] and the consumer. [PREPA] shall create this website within one hundred and eighty (180) days following the date of approval of this Act."⁴

10. Consistent with the foregoing provision of Act 133-2016, PREPA shall discontinue requiring the personal execution at PREPA offices of net metering agreements for the 251 cases listed in Exhibit B of this Agreement, which is attached to and incorporated as part of this Agreement. PREPA shall schedule an appointment to execute the net metering agreements of the cases listed in said Exhibit B within ten (10) business days of the date hereof in the manner described in the next paragraph.

11. Henceforth, PREPA shall accept net metering agreements for Sunnova distributed generation systems executed by Sunnova on behalf of Sunnova's customers in the following manner: Sunnova will submit to PREPA one or more sworn statements certifying that the Sunnova customers listed therein have authorized the appearing company representative to sign the net metering agreement on his or her respective behalf. A copy of the document whereby each of the listed Sunnova customers has authorized the Sunnova representatives to sign on his or her behalf shall accompany the sworn statement. Thereafter, a Sunnova representative that has been authorized in the foregoing manner will execute the net metering agreements with PREPA, eliminating the need for multiple appointments by individual customers. The corresponding PREPA commercial office shall schedule an appointment with the Sunnova representative to execute the net metering agreements within five (5) days of the issuance by the corresponding PREPA regional office of the authorization to interconnect. Sunnova shall release

⁴ The Spanish text reads as follows: "La Autoridad deberá crear un portal cibernético que permita la radicación electrónica de todo documento requerido por los reglamentos de interconexión vigentes, incluyendo la Certificación de Inspección de Obras de Construcción Eléctrica. Dicho portal deberá permitir el monitoreo de casos, la firma electrónica del Acuerdo de Interconexión o Medición Neta y ser capaz de proveer orientaciones en línea y material informativo para aquellos solicitantes que opten por firmar el Acuerdo de Medición Neta electrónicamente. La firma electrónica del solicitante constituirá la aceptación formal de todos los términos y condiciones del Acuerdo y perfeccionará el contrato entre la Autoridad y el consumidor. La Autoridad deberá crear este portal dentro de los ciento ochenta (180) días siguientes a la fecha de aprobación de esta Ley".

PREPA from any claims as to lack of authenticity of the signatures on the authorizations issued to Sunnova by its customers.

12. The above process shall apply until PREPA implements the web portal system mandated by Act 133-2016.

E. Supplemental Study

13. If any Sunnova cases require a supplemental study, PREPA shall observe a 180-day time limit for the preparation of such studies from issuance of the evaluation letter informing the need of such study. The 180-day period set in this Agreement will apply until the 180-period set in Article B of Section V of the proposed draft Regulation to Interconnect Generators to PREPA's Electrical Distribution System and Participate in the Net Metering Programs, published on September 10, 2016, takes effect. The promulgation of said Regulation shall not reset the 180-day period agreed to herein.

F. Enforcement

14. The Energy Commission shall have jurisdiction to ensure enforcement of the terms of this Settlement Agreement. If one party does not comply with the terms set herein, the other party may request the Energy Commission to require compliance by way of an order to comply or order to cease and desist.

In San Juan, Puerto Rico, this 10th day of October, 2016.

MANDATO ESPECIAL EN TÉRMINOS ESPECÍFICOS

Por la presente, yo, _____, cliente de la Autoridad de Energía Eléctrica (“AEE”) con número de cuenta _____, cuyo servicio eléctrico es ofrecido en la siguiente dirección:

declaro que es mi intención participar del Programa de Medición Neta de la AEE y autorizo a cualquiera de los abajo identificados, todos ellos empleados de Sunnova Energy Corporation, a comparecer ante la AEE en nombre y representación mía para firmar el Acuerdo para el Programa de Medición Neta requerido por la reglamentación aplicable. Los empleados de Sunnova Energy Corporation autorizados a comparecer y firmar el mencionado Acuerdo en mi nombre son los siguientes:

1. [Nombre]
2. [Nombre]
3. [Nombre]

Y para que así conste, firmo este Mandato Especial en Términos Específicos hoy día _____ de _____ (mes) de este año _____, en _____, Puerto Rico.

Firma

ACEPTACIÓN DE MANDATO ESPECIAL EN TÉRMINOS ESPECÍFICOS

Yo, _____, uno de los empleados de Sunnova Energy Corporation arriba identificado, por la presente acepto este Mandato Especial en Términos Específicos, y para que así conste firmo el mismo hoy día _____ de _____ (mes) de este año _____, en _____, Puerto Rico.

Firma
