

GOBIERNO DE PUERTO RICO
JUNTA REGLAMENTADORA DE SERVICIO PÚBLICO
NEGOCIADO DE ENERGÍA DE PUERTO RICO

IN RE: INFORMES OPERACIONALES DE
COMPAÑÍAS DE SERVICIO ELÉCTRICO

CASO NÚM.: CEPR-MI-2015-0006

ASUNTO: Aprobación de Traducción

RESOLUCIÓN Y ORDEN

La mayoría de los miembros del Negociado de Energía de Puerto Rico de la Junta Reglamentadora de Servicio Público ("Negociado de Energía") acordaron la traducción al idioma inglés del documento original titulado *Producción de Información Adicional para Informes Operacionales de Compañías de Servicio Eléctrico* aprobado en el idioma español el pasado 12 de febrero de 2019. De haber alguna discrepancia entre las versiones en español e inglés del documento original, las disposiciones de la versión en español prevalecerán.

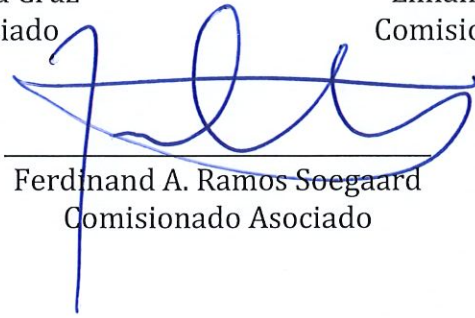

Se **ORDENA** a la Secretaria del Negociado de Energía publicar la traducción aquí aprobada.

Notifíquese y publíquese.

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: OPERATIONAL REPORTS OF
ELECTRIC SERVICE COMPANIES

CASE NO.: CEPR-MI-2015-0006

SUBJECT: Production of Additional
Information for Operational Reports of
Electric Service Companies.

ORDER

On February 5, 2016, the Puerto Rico Energy Bureau ("Energy Bureau") approved Regulation No. 8701¹, under the provisions established by Act 57-2014². Said Regulation establishes the requirements with which any Electric Service Company interested in providing services in Puerto Rico must comply. Among the requirements provided by Regulation 8701 are the presentation of the personal information of the Company, the presentation of the operational reports, the request for certification, and the payment of the annual fee, among others.

Section 2.02 of Regulation 8701 establishes various classifications for Electric Service Companies, as well as the requirements for the content of the Operational Reports to be filed before the Energy Bureau. Also, it establishes the frequency with which the Operational Reports should be presented before the Energy Bureau. Furthermore, Section 2.02(G) of Regulation 8701 establishes that "[the Energy Bureau] may require by way of an order for the production of information in addition to that required in the Operational Report that the [Energy Bureau] deems necessary for the full performance of its duties and responsibilities."

The Energy Bureau deems necessary, as applicable, the production of the following information as part of the requirements of content of the Operational Reports of any Electric Service Company that provides the service of generation of energy:

1. Report on generation of energy:
 - a. Total Generation, in MWh, produced by the generation system during the period prior to the submission of the Operational Report.
 - b. Net Generation (Total Generation - Consumption), in MWh, produced by the generation system during the period prior to the submission of the Operational Report.

¹ Amendment to Regulation No. 8618, on Certifications, Annual Fees and Operational Plans of Electric Service Companies in Puerto Rico, February 17, 2016.

² Known as the Puerto Rico Energy Transformation and RELIEF Act, as amended.

2. Report on the availability of the power generation system:
 - a. Schedule of operation during the period prior to the submission of the Operational Report.
 - b. Capacity Factor the period prior to the submission of the Operational Report.
3. Report on the outages of the power generation system:
 - a. Scheduled Outages: should specify the date, hour, duration and purpose of the outages that have occurred on the company's electric equipment, during the period prior to the submission of the Operational Report.
 - b. Non-scheduled Outages: should specify the date, hour, duration and purpose of the outages that have occurred on the company's electric equipment, during the period prior to the submission of the Operational Report.

Pursuant Section 2.02(G) of Regulation 8701, it is hereby **ESTABLISHES** that the requirements detailed above must be part of the content of the Operational Reports to be presented by the Electric Service Companies before the Energy Bureau, as of the date of notification of this Order. In those instances in which an Electric Service Company understands that any of the requirements set forth above is not applicable, it must so indicate it as part of the Operational Report, including the grounds for such determination.

Be it notified and published.
