

GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU

IN RE: REQUEST FOR CERTIFICATION
HORIZON ENERGY, LLC

CASE NO.: CEPR-CT-2016-0004

SUBJECT: Submittal of Operational Report
and Gross Revenue Information.

RESOLUTION AND ORDER

On February 27, 2019, Horizon Energy, LLC ("Horizon") filed before the Puerto Rico Energy Bureau ("Energy Bureau") information related to the gross revenues generated during fiscal year 2018, pursuant to Section 4.02 of Regulation 8701.¹ Furthermore, on February 28, 2019, Horizon submitted its operational report, pursuant to Section 2.02(A) of Regulation 8701.

I. Gross Revenue Information.

Horizon submitted its gross revenue information for fiscal year 2018 using Energy Bureau's Form NEPR-B05. With its submission, Horizon also included (i) an unaudited Balance Sheet and Income Statement for the aforementioned fiscal year; and (ii) a copy of a letter² stating that the financial statements audit process is not finalized, and the company commits to deliver the final audited financial statements by May 15, 2019.

Paragraph (D) and (E) of Section 4.02 of Regulation 8701 establish the following regarding the presentation of Financial Statements of electric service companies:

- D) Where the gross revenue of an electric service company for a given fiscal year **is equal to or less than three million dollars (\$3,000,000.00)**, the gross revenue report must be signed by an authorized representative of the electric service company. The signature of the authorized representative shall constitute a sworn certification, under penalty of perjury, that said information is correct and complete. Furthermore, **the electric service company must file before the [Energy Bureau] its financial statements as complied by a Certified Public Accountant (CPA) authorized to practice said profession in Puerto Rico.**

¹ Amendment to Regulation No. 8618, on Certifications, Annual Fees and Operational Plans of Electric Service Companies in Puerto Rico, February 17, 2016.

² See Letter Re: Gross Income Report Horizon Energy (CEPR-CT-2016-0004), Case No. CEPR-CT-2016-0004, February 26, 2019.

- E) Where the gross revenue of an electric service company for a given fiscal year **exceeds three million dollars (\$3,000,000.00)**, the gross revenue report must be signed by an authorized representative of the electric service company. The signature of the authorized representative shall constitute a sworn certification, under penalty of perjury, that said information is correct and complete. Similarly, **the company must file before the [Energy Bureau] a copy of the financial statements for the corresponding fiscal year as audited by a Certified Public Accountant (CPA) authorized to practice said profession in Puerto Rico.** Said audited financial statements must be filed with the [Energy Bureau] **within a period of one hundred and twenty (120) days, from the end date of the fiscal year** that the Company generated the gross income in question.³

The provisions of Regulation 8701 are clear regarding the requirements of presentation of the financial statements of electric service companies. It is their duty to submit their financial statements according to the provisions and terms established on Regulation 8701, subject to the amount of revenues generated for the fiscal year in question. Based on the above, and on the information provided regarding the revenues generated during Fiscal Year 2018, the Energy Bureau **ORDERS** Horizon to provide its **compiled financial statements** within ten (10) days from the date of notification of this Resolution and Order.

II. Operational Report.

Regarding the operational report, Horizon noted that it was referred to the Energy Public Policy Program, providing evidence of said referral. However, Horizon did not pay the operational report presentation fee, as established on Section 2.03 or Regulation 8701.

Based on the above, the Energy Bureau **GRANTS** Horizon **five (5) days**, from the date of notification of this Resolution and Order, to submit evidence of the payment of the corresponding fee for the filing of the operational report. Until Horizon satisfies the payment of the presentation fee set forth in Regulation 8701, the operational report shall be deemed not filed.

The Energy Bureau **WARNS** Horizon that noncompliance with the provisions of the Energy Bureau Regulations is sufficient cause for imposing fines and other administrative penalties, in accordance with the provisions of Act 57-2014⁴ and any applicable regulations.

³ Emphasis added.

⁴ Known as the *Puerto Rico Energy Transformation and RELIEF Act*, as amended.

Be it notified and published.
