IN RE: REQUEST FOR CERTIFICATION
DG SOLAR LESSEE II, LLC.

CASE NO.: CEPR-CT-2016-0017

SUBJECT: Operational Report Filing.

RESOLUTION AND ORDER

On April 23, 2019, DG Solar Lessee, LLC (“DG Solar”) filed before the Energy Bureau of the Puerto Rico Public Service Regulatory Board (“Energy Bureau”) its operational report for year 2019, pursuant to the provisions on Section 2.02(A) of Regulation 8701.¹

Section 2.02 (E) of Regulation 8701 establishes that “[e]lectric service companies shall refer their Operational Report to the [Energy Public Policy Program (“EPPP”)] for review and comments prior to submitting it to the Energy [Bureau]. When submitting their Operational Reports before the [Energy Bureau], electric service companies shall indicate whether they referred it to the EPPP for review and comments.” In addition, Section 2.02 (E)(2) of Regulation 8701 establishes that “[i]n cases where electric service companies have not referred their Operational Report to the EPPP prior to filing it before the [Energy Bureau], the electric service companies shall explain the reasons that justify them not having made said referral.”

Even though DG Solar stated that their operational report was referred to the EPPP, no evidence of such referral was filed before the Energy Bureau. Therefore, the Energy Bureau **ORDERS** DG Solar to, **within five (5) days** of the notification of this Resolution and Order, submit evidence of the presentation of its operational report before the EPPP.

Finally, the Energy Bureau **WARNS** DG Solar that noncompliance with Energy Bureau orders and Regulations is sufficient cause for imposing fines and other administrative penalties, under Act 57-2014² and any regulations.

Be it notified and published.

¹ Amendment to Regulation No. 8618, on Certifications, Annual Fees and Operational Plans of Electric Service Companies in Puerto Rico, Regulation 8701, February 17, 2016.
