IN RE: REVIEW OF THE PUERTO RICO
ELECTRIC POWER AUTHORITY
INTEGRATED RESOURCE PLAN

CASE NO.: CEPR-AP-2018-0001

SUBJECT: Documents with Confidential
treatment designation.

RESOLUTION AND ORDER

On June 7, 2019, the Puerto Rico Electric Power Authority (“PREPA”) filed a document titled *PREPA’s Verified Motion for Confidential Treatment of Portions of its Integrated Resource Plan Filing* (“June 7 Motion”) before the Energy Bureau of the Puerto Rico Public Service Regulatory Board (“Energy Bureau”). As part of its Motion, PREPA requested confidential treatment of portions of its Integrated Resource Plan (“IRP”), including several documents specified in Part I of the June 7 Motion. On June 11, 2019, the Energy Bureau granted confidential treatment to the documents specified in PREPA’s June 7 Motion.¹

As part of PREPA’s IRP filing, PREPA submitted several documents on a rolling basis from June 12, 2019 until June 14, 2019. On June 14, 2019 PREPA filed a document titled PREPA’s Cover Filing, Updated List of Documents Filed or Submitted, and Motions (“June 14 Motion”), in which, among other, included an updated list of the documents filed until June 14, 2019.² Upon reviewing the documents filed by PREPA, including the workpapers filed from June 12, 2019 until June 14, 2019, the Energy Bureau determined that there is not a direct and clear correlation between the documents filed and the documents for which confidential treatment was requested as part of the June 7 Motion. The majority of the documents filed are not properly identified (i.e. CONFIDENTIAL) and the titles assigned to the electronic files submitted do not relate to the names stated in PREPA’s motions.

Therefore, the Energy Bureau **ORDERS** PREPA to submit on or before **June 19, 2019 at 12:00 p.m.**, a detailed, specific and coherent list of the documents for which confidential treatment was sought and correct the names of the submitted electronic files, so that they coincide with the documents related to both motions.
