

**GOVERNMENT OF PUERTO RICO  
PUBLIC SERVICE REGULATORY BOARD  
PUERTO RICO ENERGY BUREAU**

**IN RE:** REVIEW OF THE PUERTO RICO  
ELECTRIC POWER AUTHORITY  
INTEGRATED RESOURCE PLAN

**CASE NO.:** CEPR-AP-2018-0001

**SUBJECT:** PREPA's Motion for Approval of  
Siemens Third Contract Amendment.

**RESOLUTION AND ORDER**

On November 6, 2018, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("November 6 Order") through which it required the Puerto Rico Electric Power Authority ("PREPA") to file, among other things, any amendment to the existing contract with Siemens, including the scope of the amendment and the expected change in contract costs. The Energy Bureau restated such request through the December 20, 2018 Resolution and Order ("December 20 Order"), in which it ordered PREPA to submit, for the Energy Bureau's review and approval, any proposed amendment to the contract with Siemens, prior to executing such amendment.

On June 20, 2019 PREPA filed a motion titled *PREPA's Motions (1) to Extend June 21 Compliance Deadline and (2) for Approval of Siemens Contract Amendment* ("June 20 Motion"). Among other things, in the June 20 Motion, PREPA informed the Energy Bureau that (i) Siemens, the technical consultant assisting PREPA with the preparation of its Integrated Resource Plan ("IRP") has had to perform significantly more work than what it was originally anticipated; (ii) due to the additional work, Siemens has reached the spending amount limit under its existing contract; (iii) the contract between PREPA and Siemens needs to be amended for a third time to increase the contract amount by about \$750,000.00, to cover costs related to the additional work. Based on the foregoing, PREPA asked the Energy Bureau to approve the proposed contract amendment. Although the June 20 Motion included a copy of the proposed amendment, PREPA described the scope of work using general language. As such, PREPA did not provide any degree of detail or estimate as to the distribution of the new funds to specific tasks, something that is generally included in a consultant's proposal to a client.

On June 24, 2019, the Energy Bureau issued a Resolution and Order ("June 24 Order") in which it determined that PREPA did not comply with the November 6 Order and the December 20 Order regarding the scope of the amendment and the expected change in the contracted amount. Therefore, the Energy Bureau ordered PREPA to, on or before June 26, 2019, at 12:00 p.m., provide a copy of the draft contract, including the scope of the work to be performed by Siemens. The Energy Bureau stated that such filing must detail the contract amount that will be assigned to each proposed task and emphasized that this information is needed in order to determine the proposed amount contract amendment and the amounts assigned thereto are justified.

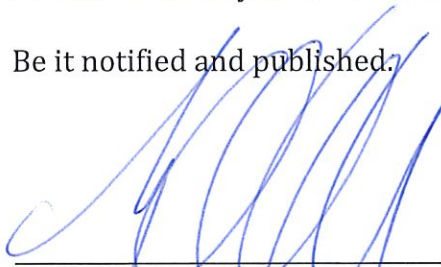

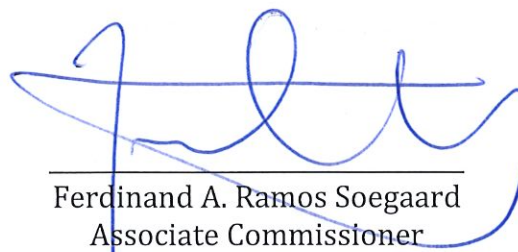

On June 26, 2019, PREPA filed a document titled *PREPA's Compliance Filing* ("Compliance Filing"). The Compliance Filing did not include the detailed information required by the Energy Bureau. Although the Energy Bureau is concerned about potential delays in any work related to the IRP, in order for the Energy Bureau to properly discharge its duties, PREPA must provide the information necessary to place the the Energy Bureau in a position to determine that the proposed contract amendment and the amounts assigned thereto are justified.

Upon review of the Compliance Filing, the Energy Bureau **DETERMINES** that PREPA did not comply with the June 24 Order regarding the scope of the amendment and the expected change in the contracted amount. The Energy Bureau **ORDERS** PREPA to, **on or before June 28, 2019, at 5:00 p.m.**, submit a copy of the Siemens proposal in which the consultant includes a breakdown of the expected work (*i.e.*, additional or remaining work) and the amount/costs associated to each task and all information ordinarily included in a proposal for a client to evaluate the reasonability of the costs of the services that would be received from the consultant (*i.e.*, rates, estimated/expected amount of hours per task, etc.).

Furthermore, the Energy Bureau **ORDERS** PREPA to, **on or before July 28, 2019, at 5:00 p.m.** file true and exact copies of (i) all invoices submitted by Siemens to PREPA under the existing contract; and (ii) documentation evidencing of all the payments made by PREPA to Siemens under the existing contract. The Energy Bureau **PROHIBITS** PREPA from executing the proposed amendment until receiving approval from the Energy Bureau.

The Energy Bureau **WARNS** PREPA that noncompliance with the filing of the required information as ordered herein, will be construed as a violation of the Energy Bureau's orders and may result in the imposition of administrative fines up to twenty-five thousand dollars (\$25,000) per day, per violation, as well as any other administrative sanctions the Energy Bureau deems necessary, in accordance with the applicable statutes and regulations.

Be it notified and published.
