**PUERTO RICO ELECTRIC POWER  
AUTHORITY RATE REVIEW**

CASE NO.:

CEPR-AP-2015-0001; NEPR-AP-2018-0003

SUBJECT:

Motion to Submit August 2019  
Reconciliations and Proposed Factors

**MOTION TO SUBMIT ADDITIONAL RECONCILIATIONS (AUGUST 2019)  
FOR THE DETERMINATION OF FACTORS FOR THE PERIOD  
OF OCTOBER TO DECEMBER 2019**

TO THE PUERTO RICO ENERGY BUREAU:

COMES NOW the Puerto Rico Electric Power Authority through the undersigned legal representation and respectfully sets forth and pray:

1. On April 25, 2019, the Puerto Rico Energy Bureau (the “Energy Bureau”) entered a Resolution and Order in which, among other matters, established and ordered the processes to be carried out for the approval of the factors associated with the fuel adjustment, purchased power, fuel oil subsidy, CILT cost adjustment, human and non-human subsidies and the energy efficiency riders (the “April 25 Resolution”). The Energy Bureau established that the factors associated with the fuel adjustment, purchased power, fuel oil subsidy were going to be reviewed and approved by the Energy Bureau on a quarterly basis.

2. On September 13, 2019 the Puerto Rico Electric Power Authority (PREPA) requested the Energy Bureau to transfer the August 2019 reconciliation to the next quarterly period through a Motion titled *Request for Extension of Time to Submit Reconciliations for the Month of August 2019*. The Energy Bureau denied PREPA’s request, and held a Technical Conference last Tuesday, September 17, 2019, in which granted PREPA until September 20, 2019 at noon to

submit the proposed factors that will be in effect from October 1, 2019 to December 31, 2019, including the August 2019 reconciliation.

3. PREPA hereby submits the October to December 2019 proposed factors, and the complete reconciliation information for the months of May, June, July and August 2019.

4. Also, pursuant to the Energy Bureau's orders, PREPA also hereby submits a public lighting adjustment report. PREPA applied the corresponding Municipal Public Lighting reduction according to the Transmission and Distribution PL Recover Report, as order by the Energy Bureau. The reduction is reflected in the PREPA official financial statement and sales statistics, which was used in the reconciliation calculations.

**WHEREFORE**, PREPA respectfully requests the Energy Bureau to note the filing of the above referenced.

**RESPECTFULLY SUBMITTED.**
