IN RE:

**PUERTO RICO ELECTRIC POWER
AUTHORITY RATE REVIEW**

CASE NO.:

CEPR-AP-2015-0001; NEPR-AP-2018-0003

SUBJECT:

Corrected Version of November 14th, 2019
Informative Motion.

**INFORMATIVE MOTION REGARDING CORRECTED VERSION OF THE
NOVEMBER 14, 2019 INFORMATIVE MOTION REGARDING
BILLING DISPUTE RESOLUTION PROCESS**

TO THE PUERTO RICO ENERGY BUREAU:

COMES NOW the Puerto Rico Electric Power Authority through the undersigned legal representation and respectfully sets forth and pray:

1. On November 14, 2019, the Puerto Rico Electric Power Authority (PREPA) filed the *Informative Motion Regarding Billing Dispute Resolution Process and Eco Electrica, L.P Meter* (the “Motion”) in compliance with the Puerto Rico Energy Bureau of the Public Service Regulatory Board (the “Energy Bureau”) October 30, 2019 Bench Order.

2. In preparation for the Technical Hearing to be held on November 25, 2019, PREPA’s officers brought to the undersigned’s attention the misuse of the term distributed energy producers (DG) to describe the utility scale renewable energy projects power purchase operating agreements (PPOA) with PREPA in the Motion.

3. To clarify, the DG projects are those where the generation is placed in the client’s property and interconnected at primary or secondary distribution level voltages (13.2 kV or less in Puerto Rico). The DG’s principal purpose is to supply the client’s consumption, and customers with

DG systems usually participate in the Net Metering program, as long as the energy source is renewable, like the large majority of DG systems are in Puerto Rico.

4. PREPA hereby informs that the *Corrected Version of Informative Motion Regarding Billing Dispute Resolution Process and Eco Electrica, L.P. Meter* filed today November 21, 2019 (the “Corrected Motion”), corrects the Motion with the above-stated information and also, supersedes said version. *See* Motion, Sec. I and Exhibit A; *see also* Corrected Motion, Sec. I and Exhibit A.

5. In the Corrected Motion PREPA also updated the information related to the replacement of the Eco Electrica, L.P. meters.

WHEREFORE, PREPA respectfully requests the Energy Bureau to take notice of the instant motion; strike the Motion filed on November 14, 2019 from the record; and note the filing of the Corrected Motion.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 21st day of November 2019.
