The projections set forth in this report are based on cash flow projections prepared by PREPA on or before April 24, 2020.

On March 12, 2020, Governor Wanda Vázquez Garced declared a state of emergency for Puerto Rico in response to the worldwide COVID-19 outbreak. On March 15, 2020, the Governor signed Executive Order 2020-023 (the "Executive Order") to Make Viable the Necessary Government and Private Closures to Fight the Effects of Coronavirus (COVID-19) and Control the Risk of Contagion on Our Island. The Executive Order directed the closure of all businesses in Puerto Rico as of March 15 at 6:00 p.m. until March 30, 2020 (the "Emergency Period") and imposed a curfew from 9:00 p.m. through 5:00 a.m. during which all residents of Puerto Rico must remain in their residences. In addition, on March 23, 2020, the Governor formally announced that the utilities in Puerto Rico, including PREPA would not disconnect customers for non-payment during the Emergency Period.

On March 30, 2020, Governor issued Executive Order 2020-029 extending the Emergency Period until April 12, 2020. On April 12, 2020, Governor issued Executive Order 2020-033 extending the Emergency Period until May 3, 2020. On May 1, 2020, the Governor issued Executive Order 2020-038 extending the mandatory lockdown through May 25, 2020, with certain exceptions. On May 21, 2020, the Governor issued Executive Order 2020-041 extending the mandatory lockdown through June 15, 2020 and the gradual opening of certain economic sectors and outdoor activities with limitations.

The projections presented herein utilize assumptions taking into account the COVID-19 impact to residential, commercial and industrial customers of PREPA to date. As the COVID-19 situation is ongoing, the impacts to date are not necessarily indicative of future impacts; and therefore the cash flow budget remains subject to material change.
