CASE NO.: NEPR-MI-2020-0008

SUBJECT: LUMA Monthly Status Reports
for Front-End Transition Services

**MOTION TO INFORM PARTICIPATION OF THE LUMA TEAM IN
INFRASTRUCTURE AND RECOVERY PLANNING ACTIVITIES**

COMES NOW the Puerto Rico Electric Power Authority (the “Authority”) through its legal representation and respectfully sets forth and prays:

1. On December 8, 2020, the Puerto Rico Energy Bureau of the Public Service Regulatory Board (“Energy Bureau”) entered a Resolution and Order (“Order”) directing the Authority to submit to the Energy Bureau a weekly status updated summary on the coordination efforts with LUMA Energy, LLC (“LUMA”) regarding coordination on infrastructure, recovery/remediation and other planning activities underway at the Authority’s Project Management Office.

2. The Authority held several meetings to discuss the development of the 10-Year Infrastructure Plan during the past months. As the Energy Bureau cites in the Order, LUMA’s main concern is that the Authority led the effort on the development of the plan with minimal visibility to LUMA. The Authority does not agree with such statements. LUMA was invited and participated in over twenty (20) meetings during which the 10-Year plan was thoroughly discussed.

3. The following list shows all the telephone conference meetings to which LUMA was invited and whether they attended or missed. The list also shows the name of the LUMA team member that participated in the call.
