

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

NEPR Received: Dec 11, 2020 10:18 PM

IN RE: COORDINATION OF SYSTEM
PLANNING EFFORTS – FRON END
TRANSITION OF T&D SYSTEM
OPERATION AND MAINTENANCE

CASE NO.: NEPR-MI-2020-0008

SUBJECT: LUMA Monthly Status Reports
for Front-End Transition Services

REQUEST FOR ONE BUSINESS DAY EXTENSION TO COMPLY WITH ORDER

COMES NOW the Puerto Rico Electric Power Authority (the “Authority”) through its legal representation and respectfully sets forth and prays:

1. On December 8, 2020, the Puerto Rico Energy Bureau of the Public Service Regulatory Board (the “Energy Bureau”) entered a Resolution and Order (the “Order”) directing the Authority to submit to the Energy Bureau a weekly status updated summary on the coordination efforts with Luma regarding coordination on infrastructure, recovery/remediation and other planning activities underway at the Authority’s Project Management Office. The first report is due today.

2. The Authority inadvertently missed the email serving a copy of the Order and became aware of the case of caption *and* the Order today around 5:00pm AST. Once the Authority found out about the Order, it immediately began coordinating and made its best efforts to gather the information necessary to adequately comply with the Order. However, given the time of the day the Authority became aware of the notice, it was not able to gather all the information necessary to adequately respond to the Order. Nevertheless, efforts to complete the information and comply with the filing of the first report are underway and will be completed by Monday.

WHEREFORE, the Authority respectfully requests the Energy Bureau to grant an extension of one business day, until Monday December 14, 2020, to comply with the Order.

In San Juan Puerto Rico, this 11th day of December 2020.
