

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

**IN RE: THE PERFORMANCE OF THE
PUERTO RICO ELECTRIC POWER
AUTHORITY**

CASE NO.: NEPR-MI-2019-0007

SUBJECT: Modification to procedural
calendar.

RESOLUTION AND ORDER

On December 23, 2020, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") notified a Resolution and Order establishing a procedural calendar in the instant case ("December 23 Resolution"). The procedural calendar established January 29, 2021 as the last day for filing of comments by the Puerto Rico Electric Power Authority ("PREPA"), LUMA Energy, LLC and LUMA Energy ServCo, LLC (collectively, "LUMA"), the general public and stakeholders.

On February 1, 2021, the Energy Bureau notified a Resolution and Order to modify the procedural calendar ("February 1 Resolution"). Due to technical issues, the Energy Bureau determined it was prudent to extend the deadline for interested parties to file comments until February 5, 2021. The Energy Bureau also extended the deadline to file replies to comments until February 12, 2021.

On February 10, 2021, LUMA filed a document titled *Request for Extension of Time to File Replies to Comments, to Reschedule the Technical Conference of February 17, 2021, and to Extend the Deadline to File Comments on the Information that will be Presented at the Technical Conference* ("LUMA Request"). LUMA states that the comments presented by the parties, stakeholders and the general public were not available to LUMA through the Energy Bureau's public docket until February 8, 2021.¹ LUMA states that on February 9, 2021, during the afternoon, another set of comments filed on February 5, 2021 were uploaded to the public docket.² LUMA argues that the availability to obtain access to the public comments and properly work on the reply has been significantly reduced from twelve (12) days to three (3) days. LUMA request that the deadline to file replies to comments be extended to February 19, 2021 and reschedule the technical conference for the last week of February 2021.

The Energy Bureau deems important and necessary to foment ample participation and effective responses from LUMA, PREPA, stakeholders and the general public to develop the key performance metrics that should be targeted for Performance Incentive Mechanisms ("PIMs"), initial baseline and compliance benchmarks.

¹ LUMA Request, ¶ 4.

² LUMA Request, ¶ 9, ¶ 10.

Based on the aforementioned, the Energy Bureau **GRANTS** LUMA's request and **AMENDS** the procedural calendar established through the December 23 Resolution and the February 1 Resolution as follows:
