PROJECTS PREPA WILL POTENTIALLY CHOOSE TO ACQUIRE 150 MW OF  
RENEWABLE ENERGY**

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

COMES NOW the Puerto Rico Electric Power Authority (“PREPA”) through the undersigned legal representation and respectfully submits and requests as follows:

1. On February 9, 2021 PREPA filed with the Puerto Rico Energy Bureau for the Public Service Regulatory Board (“Energy Bureau”) *“Motion in Compliance with Order Submitting list of Projects PREPA will Potentially Choose to Acquire 150 MW of Renewable Energy”* (“Motion Submitting”).
2. The Motion Submitting was in response to Order entered by the Energy Bureau on February 3, 2021, requiring PREPA to submit by February 9, 2021 “[a] list of the renewable energy projects PREPA will choose to acquire 150 MW from amongst the 16 proposed projects for which PREPA had requested and later withdrew petitions for the Energy Bureau's approval to execute the corresponding Power Purchase and Operation Agreements (“PPOAs”).”
3. In compliance with Order, on February 9, 2021 PREPA submitted, as Exhibit A, a draft list of the 150 MW renewable energy projects. At the time, PREPA requested that Exhibit

A be treated as confidential given PREPA's still ongoing deliberative process including pending requests of information from the Financial Oversight & Management Board for Puerto Rico ("Oversight Board") and the Oversight Board's pending approval of the projects.

4. In response, on March 3, 2021, the Energy Bureau entered order granting partial confidential designation and treatment to Exhibit A under Article 6.15 of Act 57-2014 and requiring that PREPA submit redacted versions of Exhibit A given that part of the information contained therein had become public as a result of the Oversight Board's approval of the chosen projects.
5. In compliance with Order, PREPA hereby submits redacted versions of Exhibit A to disclose what has become public information.

WHEREFORE, in compliance with order, PREPA SUBMITS redacted version of Exhibit A List of Potential Projects for PREPA to Acquire 150 MW of Renewable Energy.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 8th day of March 2021.
