

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: PUERTO RICO TEST FOR DEMAND
RESPONSE AND ENERGY EFFICIENCY

CASE NO: NEPR-MI-2021-0009

SUBJECT: Comments on June 30, 2021
Workshop.

RESOLUTION

On May 14, 2021, the Energy Bureau of the Puerto Rico Public Service Regulatory Board (“Energy Bureau”) issued a Resolution and Order (“May 14 Resolution”) through which it initiated this proceeding for the Puerto Rico Benefit Cost Test (“PR Test”) as required by Regulation 9246.¹ The Energy Bureau established that the purpose of this proceeding is to develop a Puerto Rico specific cost-effectiveness framework to assess the benefits and costs of future demand response (“DR”) and energy efficiency (“EE”) programs.

On June 30, 2021, the Energy Bureau held the first Technical Workshop, as established through the June 16, 2021 Resolution in the instant case. As part of the June 30 Technical Workshop, the Energy Bureau, through its consultants, discussed the first step in developing the PR Test identifying applicable policies and associated impacts. The Energy Bureau has developed a workbook, included as Attachment A to this Resolution, for stakeholders to rank the policies discussed in the June 30 Technical Workshop and map those policies to the impact categories.

Through this Resolution, the Energy Bureau **GRANTS** stakeholders and LUMA Energy ServCo, LLC **until July 16, 2021** to provide comments on Attachment A to this Resolution, as well as provide general comments on the issues discussed as part of the June 30 Technical Workshop.

Be it notified and published.

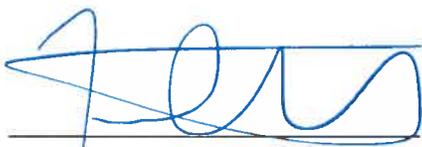

¹ Regulation 9246, *Regulation for Demand Response*, December 21, 2020.
