RESOLUTION AND ORDER

On August 3, 2021, the Puerto Rico Electric Power Authority ("PREPA") filed before the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") a document titled *Request for Technical Conference to Update the Energy Bureau on the Status of Generation Projects and FEMA Section 404 Hazard Mitigation Grant Program* ("Request").

Through its Request, PREPA states it is considering and evaluating capital generation projects eligible for funds under Section 404 Hazard Mitigation Grant Program ("Section 404 Funds").¹ PREPA states that by August 12, 2021, it must submit to FEMA a written request to extend the deadlines for generation projects eligible for Section 404 Funds.² PREPA informs that it would like to submit a report on certain generation projects and deems that a Technical Conference would aid in the discussion and ultimately, in whether to pursue certain generation capital projects or not.³

The Energy Bureau **ORDERS** PREPA, its representatives and consultants, to attend at a Virtual Technical Conference to be held **on August 10, 2021, at 1:00 p.m.**⁴ PREPA shall ensure that all representatives have all documents readily available and be prepared to answer questions from the Energy Bureau.

The Energy Bureau **ORDERS** PREPA to submit before the Energy Bureau the comprehensive report referenced in the Request and a copy of the Power Point presentation to be provided at the Technical Conference, **on or before August 9, 2021, at 12:00 p.m.**
