**MOTION REITERATING REQUEST FOR MEETING TO DISCUSS**  
[REDACTED]  
[REDACTED]

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

**COMES NOW** the Puerto Rico Electric Power Authority (“PREPA”), through its counsel of record, and respectfully submits and prays as follows:

On December 16, 2021, PREPA submitted the *Motion Submitting Draft Power Purchase and Operating Agreements Offered in Tranche 1 of PREPA’s Renewable Generation and Energy Storage Resources RFP for Energy Bureau Evaluation* (the “December 16 Motion”). With the December 16 Motion, PREPA tendered the Tranche 1 Report and Bespoke Contracts and asked the Energy Bureau to evaluate and approve them. In the December 16 Motion, PREPA informed the Energy Bureau that it had finalized Phase III of the Tranche 1 RFP with an offer to fifteen (15) proposals for Solar PV projects that comprise a capacity of 732.7 MW and that it had effectively sought contracts for energy storage resources that encompass a capacity of 220 MW. PREPA also informed that the evaluation of VPP resource proposals remains ongoing.<sup>1</sup>

On December 23, 2021, PREPA submitted the *Supplemental Motion Submitting PV Renewable Energy Draft Power Purchase And Operating Agreements (PPOA's) As Well As Energy Storage Service Agreements (ESSA's) As Part Of PREPA's Tranche 1 Renewable Generation And Energy Storage Resources RFP For Energy Bureau Evaluation And Approval* (the "December 23 Motion"). PREPA explained to the Energy Bureau that since the December 16 Motion had been submitted, PREPA had received additional offers from Proponents that met the LCOE and LCOS thresholds previously determined by the Tranche 1 Committee and that these projects represent an additional 112.1 MW of capacity, to continue in the Phase III evaluation process. With this determination, the total Solar PV capacity of Tranche 1 amounts to 844 MW.

That same day PREPA submitted the *Informative Motion Providing Update on Status and Timing of Selection of Virtual Power Plant Resources in Relation to the Tranche 1 RFP* (the "VPP December 23 Motion") through which PREPA informed the Energy Bureau of the status of the VPP negotiations and the pending issues that could affect the finalization of GSAs with VPP proponents.

On December 28, 2021, the Energy Bureau entered a *Resolution and Order* (the "December 28 Order") in which the Energy Bureau resolved "that additional information is needed from PREPA to allow for a more thorough Phase III evaluation of respondent offerings for both solar PV and battery energy storage resources in Tranche 1" and ordered PREPA (i) to answer the questions included as Attachment A to the December 28 Order; (ii) file the Bespoke Contracts for VPP resources; (iii) to include and file with the Energy Bureau at least the next four (4) solar PV proposed offerings representing 130 MW additional nameplate capacity ("Four Additional

Accordingly, PREPA respectfully requests that the Energy Bureau schedule the requested confidential meeting between the Honorable Commissioners and Tranche 1 Evaluation Committee as soon as possible and grant a ten (10) day extension after the meeting to submit the information requested in the December 28 Order.

**WHEREFORE**, for the reasons stated above, PREPA respectfully requests that the Energy Bureau grant a confidential meeting with the Tranche 1 Committee [REDACTED] and grant ten (10) business days after the meeting to submit the information required.

**RESPECTFULLY SUBMITTED.**

In San Juan, Puerto Rico, this 26<sup>th</sup> day of January 2022.
