IN RE: REVIEW OF LUMA’S MODEL BILL	<b>CASE NO. NEPR-MI-2021-0008</b>  SUBJECT: Solution of Minor Data Issue
------------------------------------	--

**INFORMATIVE MOTION ON SOLUTION OF MINOR DATA ISSUE  
TO THE HONORABLE PUERTO RICO ENERGY BUREAU:**

COME NOW LUMA Energy, LLC<sup>1</sup>, and LUMA Energy ServCo, LLC<sup>2</sup>, (jointly referred to as “LUMA”), and respectfully submit and request the following:

On February 11, 2022, this Puerto Rico Energy Bureau (“Energy Bureau”) issued a Resolution and Order (the “February 11<sup>th</sup> Resolution”) approving a revised version of LUMA’s Model Bill submitted by LUMA for approval on January 28, 2022<sup>3</sup> (“Approved LUMA Bill”).

On March 2, 2022, LUMA informed this Energy Bureau that it was ready to issue the Approved LUMA Bill on March 4, 2022, but it had discovered a minor data issue resulting in the exclusion of the Cost per kWh Graph on the fourth logical page of the Approved LUMA Bill for the less than 130,000 industrial and commercial customers, which would occur only during the first billing cycle (i.e., month) of the Approved LUMA Bill. *See LUMA’s Urgent Notice of Minor Data Issue Related to Launch of Approved Model Bill* of that date (“March 2 Notice”). LUMA

---

<sup>1</sup> Register No. 439372.

<sup>2</sup> Register No. 439373.

<sup>3</sup> Pursuant to Resolution and Order issued on November 16, 2021, this Energy Bureau had approved a version of a proposed model bill submitted by LUMA on September 29, 2021, (the “September 29 Model Bill”). On January 28, 2022, LUMA requested the approval of minor revisions to the September 29 Model Bill. *See LUMA’s Petition to Request Approval of Minor Revisions to Approved LUMA’s Model Bill* of that date.

then requested that this Energy Bureau authorize it to proceed with the launch of the Approved Model Bill on March 4, 2022, given that, among others, the minor data issue would be corrected as soon as possible and no later than the second billing cycle.

By Resolution and Order issued on March 3, 2022 (“March 3 Order”), the Energy Bureau authorized LUMA to continue with the launch of the Approved LUMA Bill on March 4, 2022, as proposed in the March 2 Notice, and ordered LUMA to inform the Energy Bureau, on or before April 3, 2022, of the solution to the minor data issue. *See* March 3 Order at page 3.

On March 4, 2022, LUMA proceeded with the launch of the Approved Model Bill. *See* LUMA’s *Notice of LUMA Bill Implementation* filed with the Energy Bureau on March 10, 2022, wherein LUMA provided notice of this launch.

Now, in compliance with the March 3 Order, LUMA hereby notifies this honorable Energy Bureau that LUMA resolved the minor data issue by correcting and placing into production the historical kWh cost data and related line graph on March 18, and, therefore, all bills generated in April, the second month of the new bill design, (including those for all commercial and industrial clients), will contain the Cost per kWh Graph on the fourth logical page as well as all other components of the Approved Model Bill.

**WHEREFORE**, LUMA respectfully requests that the Energy Bureau **take notice** of the above and deem LUMA in compliance with the requirement to inform the Energy Bureau of the solution to the minor data issue in the Energy Bureau’s Resolution and Order of March 3, 2022.

**RESPECTFULLY SUBMITTED.**

In San Juan, Puerto Rico, this 29<sup>th</sup> day of March 2022.

We hereby certify that we filed this Motion using the electronic filing system of this Energy Bureau and that I will send an electronic copy of this Petition to the attorneys for **PREPA**, Joannely

Marrero-Cruz, jmarrero@diazvaz.law; and Katuska Bolaños-Lugo, kbolanos@diazvaz.law.  
Notice will also be sent to the **Independent Consumer Protection Office**, Lcda. Hannia Rivera  
Diaz, hrivera@jrsp.pr.gov.
