

**GOVERNMENT OF PUERTO RICO
PUERTO RICO PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: THE DEPLOYMENT OF ELECTRIC
VEHICLE CHARGING INFRASTRUCTURE

CASE NO.: NEPR-MI-2021-0013

SUBJECT: Motion to Submit Presentation
Offered During Hybrid Technical
Conference of February 1, 2024 Regarding
LUMA's Customer Outreach Memorandum

RESOLUTION AND ORDER

I. Introduction and Background

On January 2, 2024, LUMA Energy, LLC and LUMA Energy ServCo, LLC (collectively referred as, "LUMA") filed a document titled *Motion to Submit Report on Customer Outreach Memorandum in Compliance with Resolutions and Orders of January 13, 2023, as Modified by Resolution and Orders of March 29, 2023, June 6, 2023, and August 11, 2023* ("January 2 Motion"), which included as Exhibit 1, the Customer Outreach Memorandum.

On January 12, 2024, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("January 12 Resolution") taking notice of LUMA's Customer Outreach Memorandum and scheduling a Hybrid Technical Conference for February 1, 2024 on the topic of LUMA's Customer Outreach Memorandum, its efforts to collect information from low-income customers related to electric transportation, and the steps LUMA will take to address barriers to low-income EV adoption.¹

During the February 1, 2024, Hybrid Technical Conference, LUMA representatives gave a PowerPoint presentation regarding LUMA's Customer Outreach Memorandum to the Energy Bureau and its Consultants.

On February 1, 2024, LUMA filed a document titled *Motion to Submit Presentation Offered During Hybrid Technical Conference of February 1, 2024 Regarding LUMA's Customer Outreach Memorandum* ("February 1 Motion"), which included as Exhibit 1, the presentation presented by LUMA at the Hybrid Technical Conference.

II. Discussion and Analysis

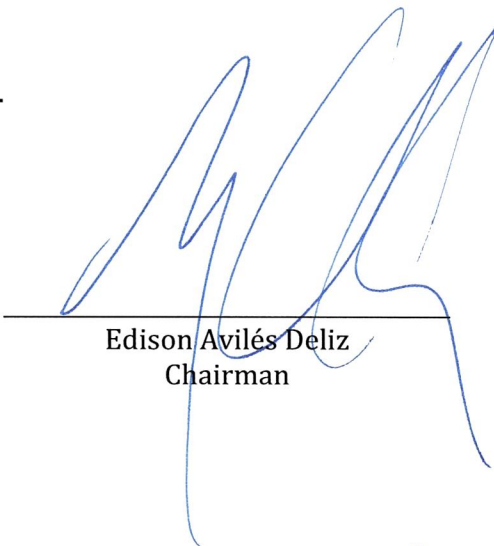

The Energy Bureau is encouraged by LUMA's efforts to collaborate with and obtain learnings from its customers, low-income community leaders, and a public transportation company, and industry representatives as part of its efforts to support electric vehicle adoption. After consideration of the information presented by LUMA at the February 1, 2024 Hybrid Technical Conference and review of the presentation submitted by LUMA in its February 1 Motion, the Energy Bureau finds that electrification of public transportation and fleets will be crucial to providing an equitable distribution of the environmental and public health benefits from electrification of the transportation sector to low-income and disadvantaged communities. The Energy Bureau **ACCEPTS** LUMA's presentation and **ORDERS** LUMA to:

1. Provide a description of how LUMA plans to further engage with the public transportation and fleet sectors, especially those located in or serving disadvantaged communities, within its forthcoming Puerto Rico's Electric Vehicle Adoption Plan ("PR-EVAP") Semi-Annual Report.
2. Consider proposing changes to its PR-EVAP based on the findings from its Customer Outreach Memorandum.

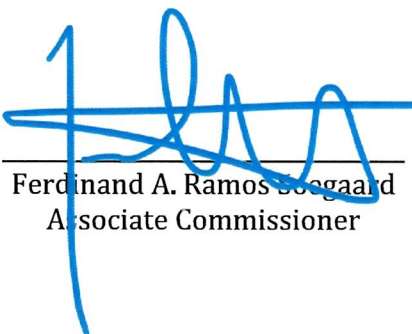

¹ January 12 Resolution, p. 3.

Be it notified and published.

Edison Avilés Deliz
Chairman

Ferdinand A. Ramos Sogaard
Associate Commissioner

Sylvia B. Ugarte Araujo
Associate Commissioner

CERTIFICATION

I certify that the majority of the members of the Puerto Rico Energy Bureau have agreed on February 12, 2024. Associate Commissioners Lillian Mateo Santos and Antonio Torres Miranda did not intervene. I also certify that on February 12, 2024 a copy of this Resolution and Order was notified by electronic mail to laura.rozas@us.dlapiper.com; julian.angladapagan@us.dlapiper.com; and I have moved forward with filing the Resolution and Order issued by the Puerto Rico Energy Bureau.

I sign this in San Juan, Puerto Rico, today February 12, 2024.

Sonia Seda Gaztambide
Clerk
