requirements in Case NEPR-MI-2021-0004 and, thus, concede an extension until April 15, 2024, to file the first status report on all the projects to coincide with the reporting requirements corresponding to the second quarter of Fiscal Year 2024.

3. On February 28, 2024, the Energy Bureau issued a Resolution and Order granting LUMA's request for extension and ordered it to file the first status report on or before April 15, 2024 ("February 28<sup>th</sup> Order"). Further, it determined that the subsequent reports would be submitted quarterly on the following dates: October 15, 2024, and January 15, 2024.

4. Currently, LUMA is working diligently to gather and validate the information to be provided to the Energy Bureau and ensure the accuracy and correctness of the first status report

5. With the intent of ensuring the quality and reliability of the information contained in the submission, LUMA requires a brief additional extension of time to file the first status report on all the projects approved by the Energy Bureau. LUMA expects to be able to file the report on or before April 19, 2024.

6. This request for a brief additional extension of time is filed in good faith and with the only purpose of putting LUMA in a position to submit the first status report on all the projects approved by the Energy Bureau with accurate and precise information. This brief extension should not unduly delay the Energy Bureau's processes.

**WHEREFORE**, LUMA respectfully requests that the Energy Bureau **take notice** of the aforementioned; and **grant** a brief additional extension until April 19, 2024, to file the first status report on all the projects approved by the Energy Bureau to coincide with the reporting requirements corresponding to the second quarter of Fiscal Year 2024.

**RESPECTFULLY SUBMITTED.**
