Re: Aclaración R&O 20231106 NEPR-MI-2020-0012

Ladies and Gentlemen:

APER respectfully submits an urgent request for a response to our letter submitted November 14, 2023.

It is our expectation that, as additional utility scale projects move to the construction stage, a significant number of resources will be required.

It is of utmost importance to understand the eligibility of available resources that comply with requirements.

Please confirm that once an RFP submittal has been awarded and the corresponding contract has been executed, the Proponent is free to engage with any of the Restricted Parties listed, provided the Proponent is not then participating in any subsequent Tranche of the RFP (i.e., Tranche 5 and further Tranches) involving the same Restricted Parties.

Thanks in advance for your attention.

Julián Herencia
Executive Director
