FY2025 NME Budget Reallocation Request.

RESOLUTION NUNC PRO TUNC

On January 14, 2025, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("January 14 Resolution") through which it made its determination on Genera's Scope of Work ("SOW") for twenty-three (23) Projects in connection with Genera's FY2025 NME reallocation request.

On page 3 titled **III. Conclusion** of the January 14 Resolution, second paragraph states: "These projects were approved based on the information provided by PREPA, should the scope of the project changes, PREPA **SHALL** immediately seek the Energy Bureau's approval of such changes". The Energy Bureau **CORRECTS** that the company name is Genera, instead of PREPA. Additionally, on the same page, third paragraph states: "The Energy Bureau **ORDERS** PREPA to [...]". The Energy Bureau **CORRECTS** that the company name is Genera, instead of PREPA.

Accordingly, the Energy Bureau **CORRECTS**, *motu proprio*, said clerical errors through this Resolution. The two sections now read as follows:

III. Conclusion

Upon review, the Energy Bureau **APPROVES** the SOWs included in Attachment A of this Resolution and Order for a total of **\$46,471,000.00**. These projects were approved based on the information provided by Genera, should the scope of the project change, Genera **SHALL** immediately seek the Energy Bureau's approval of such changes.

The Energy Bureau **ORDERS** Genera to (i) submit to the Energy Bureau copy of the approval by COR3 and/or FEMA of the projects in **Attachment A** of this Resolution and Order, which shall contain the costs obligated for each project, **within ten (10) days of receipt of such approval**; (ii) provide the Energy Bureau the actual contracted cost to construct each project approved in the **Attachment A** of this Resolution and Order, **within ten (10) days from the execution of the contract**; and (iii) inform the Energy Bureau once the projects are completed.
