PUERTO RICO PUBLIC SERVICE REGULATORY BOARD  
PUERTO RICO ENERGY BUREAU**

**IN RE:** REVIEW OF THE PUERTO RICO  
ELECTRIC POWER AUTHORITY  
INTEGRATED RESOURCE PLAN

**CASE NO.:** NEPR-AP-2023-0004

**SUBJECT:** Extension of May 16, 2025 IRP  
Filing Date.

**RESOLUTION AND ORDER**

On October 29, 2024, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") directed LUMA<sup>1</sup> to file its full Integrated Resource Plan ("IRP") proposal in compliance with Regulation 9021<sup>2</sup> on May 16, 2025.

On November 22, 2024, LUMA submitted its First Interim 2025 IRP Filing ("First Interim Filing"). Included in the First Interim Filing were workpapers with PLEXOS input assumptions and PLEXOS results for four Portfolios, associated with Scenarios 1, 2, 3 and 4.

On January 10, 2025, LUMA submitted its Revised First Interim 2025 IRP Filing ("Revised Interim Filing"), containing updates to the First Interim Filing.

On March 19, 2025, Puerto Rico enacted Act 1-2025, a new law which includes i) removal of the interim targets of the 100% Renewable Portfolio Standard by 2050, and ii) an extension (to the end of 2032) for the planned shutdown of coal-burning electric power production at the Guayama, Puerto Rico coal-fired power plant.

On March 27, 2025, LUMA submitted its Second Interim IRP Filing ("Second Interim Filing"). Included in the Second Interim Filing were PLEXOS results for scenarios 1 through 10, workpapers, a preliminary flexibility analysis, and a summary of LUMA's recommended Preliminary Preferred Resource Plan ("PPRP"). The PPRP and associated electric power system modeling did not include the effect Act 1-2025 may have on a final preferred resource plan under the IRP process.

The Energy Bureau hereby **STAYS** the requirement for LUMA to file its final IRP from May 16, 2025 to a date to be determined and notified shortly.

Be it notified and published.
