AND MAYAGUEZ CT WITH NATURAL GAS
AS PRIMARY FUEL

CASE NO.: NEPR-MI-2024-0004

SUBJECT: Extension of deadline to resolve
the February 20 Motion.

RESOLUTION

On January 31, 2025, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a *Resolution and Order for Request for Leave to Operate Mayaguez CTs with Natural Gas as Primary Fuel* ("January 31 Resolution for the Mayaguez CTs"), conditionally approving the fuel swap for the Mayagüez CTs subject to fulfillment of certain conditions and criteria outlined therein to safeguard the public interest.

On the same day, the Energy Bureau issued another *Resolution and Order for Request for Leave to Operate Palo Seco MP with Natural Gas as Primary Fuel* ("January 31 Resolution for the Palo Seco MP") conditionally approving the conversion of the Palo Seco MPs, also subject to specific conditions.

On February 20, 2025, Genera PR LLC ("Genera") filed a document titled *Motion for Reconsideration of Resolution and Order dated January 31, 2025* ("February 20 Motion"), in which Genera requests the Energy Bureau to reconsider the January 31 Resolution for the Mayagüez CTs and the January 31 Resolution for the Palo Seco MP, vacate the current directives, and reinstate the previously approved terms.

On March 6, 2025, the Energy Bureau issued a Resolution and Order taking notice of the February 20 Motion and commenced its evaluation on Genera's arguments ("March 6 Resolution").

The Energy Bureau is still evaluating the February 20 Motion. Certain circumstances related to the matters raised therein require further consideration and analysis. Although the Energy Bureau initially anticipated resolving the Motion on or before May 20, 2025, it now requires an additional thirty (30) days to issue its determination.

The Energy Bureau **ANNOUNCES** its intent to resolve the February 20 Motion within thirty (30) days from May 20, 2025.
