**IN RE:** REQUEST FOR CERTIFICATION  
OF ENEL X ARECIBO, LLC

**CASE NO:** NEPR-CT-2023-0006

**SUBJECT:** Personal Information Form

**MOTION IN COMPLIANCE WITH JUNE 16 RESOLUTION AND ORDER**

**TO THE HONORABLE ENERGY BUREAU:**

**COMES NOW**, Enel X Arecibo, LLC, represented by the undersigned legal counsel, and respectfully submits the following:

1. On June 16, 2025, the Honorable Energy Bureau issued a Resolution and Order directing Enel X to submit, within 15 days from the notification of the Resolution and Order, the appropriate documentation pertaining to the reported name change.
2. Pursuant to Section 2.01(D) of the Amended Regulation on Certifications, Annual Charges and Operational Plans of Electric Service Companies in Puerto Rico, Regulation No. 8701 ("Regulation 8701"), any electric service company that experiences a change in the information previously submitted to the Energy Bureau is required to notify the Bureau and provide the corresponding updated documentation.
3. As previously notified to the Honorable Energy Bureau, Enel X Arecibo, LLC recently underwent a change in control, resulting in the entity's name being changed to Calibrant Arecibo, LLC ("Calibrant").
4. In compliance with Section 2.01(D) of Regulation 8701, Calibrant hereby respectfully submits an updated Personal Information Form and its corresponding

attachments (**Attachment 1**) alongside evidence of payment for the corresponding fee (**Attachment 2**).

5. Lastly, Calibrant requests that confidential treatment be afforded to this motion and its corresponding attachments. Section 6.15 of Act No. 57 of May 17, 2014, as amended, 22 L.P.R.A. § 1054n, provides:

If any person who is required to submit information to the Energy [Bureau] believes that the information to be submitted has any confidentiality privilege, such person may request the [Bureau] to treat such information as such, subject to the following:

(a) If the Energy [Bureau], after the appropriate evaluation, believes such information should be protected, it shall grant such protection in a manner that least affects the public interest, transparency, and the rights of the parties involved in the administrative procedure in which the allegedly confidential document is submitted.

(b) To such purposes, the Energy [Bureau] shall provide access to the document or the privileged portion of the document only to the lawyers and external consultants involved in the administrative process after the execution of a confidentiality agreement.

(c) The Energy [Bureau] shall keep the documents submitted for its consideration out of public reach only in exceptional cases. In these cases, the information shall be duly safeguarded and delivered exclusively to the personnel of the Energy [Bureau] who needs to know such information under nondisclosure agreements. However, the Energy [Bureau] shall direct that a non-confidential copy be furnished for public review.

(d) The Energy [Bureau] shall swiftly act on any privilege and confidentiality claim made by a person subject to its jurisdiction by means of a resolution to such purposes before any allegedly confidential information is disclosed.

6. In turn, Section 1.15 of Regulation 8701 provides that when a person who is required to submit information to the Energy Bureau considers such information to be

privileged or confidential, the person shall identify the information it deems privileged or confidential, request the Energy Bureau to protect such information, and present arguments supporting the privilege or confidentiality claim. The Energy Bureau shall evaluate the petition and, if it concludes the information merits protection, it shall proceed pursuant to Section 6.15 of Act No. 57.

7. Concomitantly, the Energy Bureau's Policy on Confidential Information details the procedures a party should follow to request that a document or portion thereof be afforded confidential treatment. In essence, the referenced Policy requires identifying confidential information and filing a memorandum of law explaining the legal basis and support for a request to file information confidentially. See CEPR-MI-2016-0009, Section A, as amended by the Resolution of September 21, 2016, CEPR-MI-2016-0009. The memorandum should also include a table that identifies the confidential information, a summary of the legal basis for the confidential designation, and why each claim or designation conforms to the applicable legal basis of confidentiality. *Id.* at ¶ 3. The party seeking confidential treatment of information filed with the Energy Bureau must also file both "redacted" or "public version" and an "unredacted" or "confidential" version of the document that contains confidential information. *Id.* at ¶ 6.

8. Calibrant respectfully requests that all the information contained in this motion and the documents attached hereto be kept confidential in accordance with Section 1.15 of Regulation 8701 and Section 6.15 of Act No. 57. These documents have sensitive information, otherwise not available to the public, which Calibrant prefers not to disclose, that could place Calibrant at a competitive disadvantage with respect to other market participants and cause it economic harm. In compliance with the Energy Bureau's Policy

on Management of Confidential Information, CEPR-MI-2016-0009, below is a table summarizing the hallmarks of this request for confidential treatment.
