IN RE: THE PERFORMANCE OF THE
PUERTO RICO ELECTRIC POWER
AUTHORITY

CASE NO.: NEPR-MI-2019-0007

SUBJECT: Submission of Monthly Report
on System Reliability Metrics for July 2025

**SUBMISSION OF THE MONTHLY REPORT ON SYSTEM
RELIABILITY METRICS FOR JULY 2025**

TO THE PUERTO RICO ENERGY BUREAU:

COMES NOW, LUMA ENERGY SERVCO, LLC (“LUMA”), through the undersigned legal counsel and respectfully states and requests the following:

I. Introduction

LUMA respectfully submits this motion in compliance with the Puerto Rico Energy Bureau’s (“Energy Bureau”) directives regarding the reporting of system reliability metrics. This filing provides the required data for July 2025, pursuant to the Energy Bureau’s order entered on May 16, 2025, and in accordance with the applicable provisions of the *Puerto Rico Transmission and Distribution System Operation and Maintenance Agreement*¹ and prior orders in this proceeding.

II. Relevant Procedural Background

The requirement to submit quarterly reports on specified system data of the Puerto Rico Electric Power Authority (“PREPA”) arises under the *Resolution and Order* issued by the Energy Bureau on May 14, 2019, in this proceeding. Following the *Resolution and Order* issued on

¹ The *Transmission and Distribution System Operation and Management Agreement* was executed by LUMA Energy, LLC, LUMA Energy ServCo, LLC, the Puerto Rico Electric Power Authority, and the Puerto Rico Public-Private Partnerships Authority on June 22, 2020. This agreement is supplemented and amended by the *Puerto Rico Transmission and Distribution System Operation and Maintenance Supplemental Terms Agreement*, which was also executed on the same day. This document is referred to as the “T&D OMA.”

December 30, 2020, the quarterly system data is due on the 20th day of the month after each quarter closes.²

According to Section 5.6 of the T&D OMA, LUMA, as an agent of PREPA, submits systems data regarding the Transmission and Distribution System (“T&D System”).

On May 16, 2025, the Puerto Rico Energy Bureau issued a *Resolution and Order* with the subject *Response to LUMA's January 15 Motion, Response to Genera's February 3 and February 10 Motions, System Reliability Metric Reporting Frequency, and Additional System Reliability Metrics* (the “May 16th Order”). The Energy Bureau directed LUMA to beginning reporting by the 20th day of the following month, *inter alia*, the reliability metrics set forth in Section C(a), to wit: System SAIDI (T&D FYTD), System Monthly SAIDI (T&D), System SAIFI (T&D FYTD), and System Monthly SAIFI (T&D).

III. Submission of System Reliability Metrics for July 2025

In further compliance with the Energy Bureau’s May 16th Order, LUMA hereby submits for July 2025, the System SAIDI (T&D FYTD), System Monthly SAIDI (T&D), System SAIFI (T&D FYTD), and System Monthly SAIFI (T&D) metrics. This submission is accompanied by the Excel workbook entitled “*Resumen Metricas Master_August2025.xlsx*,” (“Exhibit 1”), which contains the required reliability metrics in accordance with the directives outlined in the May 16th Order. *See* Exhibit 1, cells BC136, BC137, BC140, and BC141.

² In a *Resolution and Order* of August 18, 2022, this Energy Bureau granted LUMA’s request to align the quarterly filings of system data in this proceeding with the filing of the quarterly operation report submitted after each quarter of the fiscal year closes. Consequently, the quarterly reports are now due in the following months: October (with data for the months of July through September), January (with data for the months of October through December), April (with data for the months of January through March), and July (with data for the months of April through June). *See Request for Modification of Schedule to File System Data and Submission of Quarterly Performance Metrics Report for June 2022* (“Request to Modify Schedule”) and Exhibit 1 (Schedule of proposed changes) and Exhibit 2 (Proposed Filing Schedule).

LUMA respectfully notes that the values reported for June 2025 and July 2025 are preliminary and, as such, remain subject to revision in future submissions as needed.

WHEREFORE, LUMA respectfully requests that this Honorable Bureau **take notice of** the aforementioned; **accept** the monthly report on system reliability metrics for July 2025.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 20th day of August 2025.

I hereby certify that we filed this motion using the electronic filing system of this Energy Bureau and that I will send an electronic copy of this motion to PREPA's counsel of record, Alexis Rivera Medina, arivera@gmlex.net and Mirelis Valle Cancel, mvalle@gmlex.net, and Genera PR LLC, through its counsel of record Jorge Fernández-Reboredo, jfr@sbgblaw.com and Jennise M. Álvarez, jennalvarez@sbgblaw.com, legal@genera-pr.com, regulatory@genera-pr.com and the Independent Consumer Protection Office, Hannia Rivera Diaz, hrivera@jrsp.pr.gov.
