PUERTO RICO PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: INVESTIGATION ON DUAL-FUEL
CAPABILITY (DIESEL AND NATURAL GAS)
OF TEMPORARY MOBILE POWER
GENERATION UNITS ("TMPs") AT PALO
SECO AND SAN JUAN PLANTS

CASE NO.: NEPR-IN-2025-0004

SUBJECT: Order to Show Cause.

ORDER TO SHOW CAUSE

On July 16 2025, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order in docket NEPR-AP-2024-0001 directing Genera PR, LLC ("Genera") to provide specific information regarding the dual-fuel (natural-gas / ULSD) capability of its TM2500 aeroderivative generating units at the San Juan and Palo Seco power plants.¹

On July 22, 2025, Genera filed a document titled *Escrito en Cumplimiento de Orden* ("Compliance Filing") in the same docket, offering partial answers and raising additional technical, logistical, and budgetary considerations. After reviewing Genera's filing, the Energy Bureau issued a Resolution on July 24, 2025 in the instant docket to commence an investigative proceeding to evaluate the alleged issues related to fuel logistics, operational readiness, infrastructure adequacy, among others.

On August 7, 2025, the Energy Bureau ordered Genera to submit additional information ("August 7 Resolution") and granted it ten (10) days to submit the required information, as enumerated in Attachment A of the August 7 Resolution.

Genera had until **August 18, 2025** to comply with the August 7 Resolution.

As of this Order, Genera has failed to appear before the Energy Bureau, nor has it complied with the August 7 Resolution.

The Energy Bureau **ORDERS** Genera to comply with the August 7 Resolution, within **three (3) business days**, and to **SHOW CAUSE, within the same timeframe**, as to why the Energy Bureau should not impose an administrative fine of **fifty thousand dollars (\$50,000)**² for its failure to comply with the August 7 Resolution, under Section 6.36 of Act 57-2014.³

Given the ongoing generation crisis, it is unacceptable that Genera has failed to appear and comply with the Energy Bureau's requirement of information. Immediate and full compliance is expected. The Energy Bureau **WARNS** Genera that **failure to timely respond to this Order to Show Cause will result in the immediate imposition of a fine of fifty thousand dollars (\$50,000)** and a continuing fine of up to **twenty-five thousand dollars (\$25,000)** per day until full compliance is achieved.

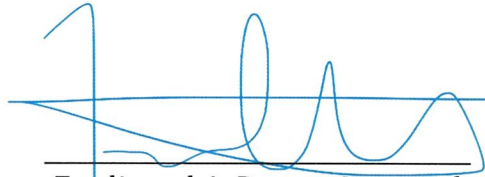

Be it notified and published.

¹ See Resolution and Order, *In Re: Request for Approval of the Asset Purchase Agreement Between NFE Power PR LLC and the Puerto Rico Electric Power Authority*, Case No. NEPR-AP-2024-0001, July 16, 2025, ("July 16 Resolution").

² This fine shall be paid from Genera's fee. It will not be an allowed pass-through cost.

³ Known as the *Puerto Rico Energy Transformation and RELIEF Act*, as amended ("Act 57-2014").
