IN RE: REVIEW OF THE PUERTO RICO
ELECTRIC POWER AUTHORITY'S 10-YEAR
INFRASTRUCTURE PLAN – DECEMBER 2020

CASE NO.: NEPR-MI-2021-0002

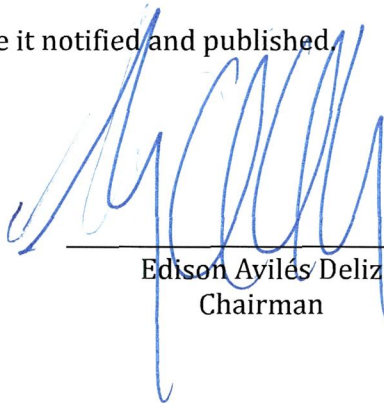

SUBJECT: Resolution pertaining to
Informative Motion on the Status of SOW:
4X25 MW BESS Interconnections at LUMA
38KV System (August) and Request for
Modification of Reporting Requirement,
filed by LUMA Energy, LLC and LUMA
Energy ServCo, LLC.

RESOLUTION

On August 28, 2025, LUMA¹ filed before the Puerto Rico Energy Bureau of the Public Service Regulatory Board ("Energy Bureau") a document titled *Informative Motion on the Status of SOW: 4 X 25 MW BESS Interconnections at LUMA 38KV System (August) and Request for Modification of Reporting Requirement* ("August 28 Motion"). Through the August 28 Motion, LUMA requested that, to avoid duplication of work and resources, simplify the process and achieve greater efficiencies, the Energy Bureau modify the reporting requirements relating to the status of the activities of the 4X25 MW BESS Project by eliminating this requirement from the instant docket and preserving it only in the Priority Stabilization Plan docket (Case No.: NEPR-MI-2024-0005, *In Re: Priority Plan for the Stabilization of the Electric Grid*), where it would remain in effect.

The Energy Bureau **DENIES** LUMA's request. The Energy Bureau will not exempt LUMA from filing the report in this docket, since the report filed in the other docket is not equivalent. The report required in the instant docket is detailed and thorough, whereas the report in the other docket, although addressing the same matter, is general in nature. Nonetheless, the Energy Bureau allows LUMA to file the monthly report submitted in this docket as part of the Monthly Collaborative Report submitted in Case No.: NEPR-MI-2024-0005, *In Re: Priority Plan for the Stabilization of the Electric Grid*, so as to avoid the preparation of two separate reports.

Be it notified and published.
