IN RE: REQUEST FOR CERTIFICATION
BY SUNSTRONG MANAGEMENT
LLC

CASE NO.

SUBJECT: Request for Certification

**MOTION TO REQUEST CERTIFICATION AS AN ELECTRIC SERVICE COMPANY
AND AS A DR AGGREGATOR
AND REQUEST FOR CONFIDENTIAL TREATMENT**

TO THE HONORABLE ENERGY BUREAU:

COMES NOW, SunStrong Management LLC ("SunStrong"), represented by the undersigned legal counsel, and respectfully submits the following:

I. CERTIFICATION AS AN ELECTRIC SERVICE COMPANY

1. SunStrong hereby respectfully submits its request for certification as an electric service company, as required by Section 3.03 of the *Amendment to Regulation No. 8618 on Certification, Annual Fees, and Operational Plans for Electric Service Companies in Puerto Rico*, Regulation 8701 of the February 17, 2016, as amended ("Regulation 8701"). The following documents are attached hereto: (i) the Personal Information Form NEPR-B01, a copy of the permits necessary to operate and do business in Puerto Rico (**Attachment 1**); (ii) the Operational Report Form NEPR-B03 alongside its corresponding annex and attachments (**Attachment 2**); (iii) Request for Certification Form NEPR-B04 (**Attachment 3**);¹ (vi) a statement affirming the sufficiency of the company's human

¹ Please note the attached Request for Certification Form marks incorrect annexes included with the form. SunStrong respectfully requests the Energy Bureau disregard the selected annexes.

Confidential Treatment Requested

resources (**Attachment 4**); and (vii) evidence of payment of the fees due upon submission of the Personal Information Form, the Operational Report Form, and the Request for Certification Form (**Attachment 5**).

2. Section 3.03(A)(3) Regulation 8701 requires electric service companies to submit a certified statement from a certified public accountant that confirms that they possess sufficient financial and economic resources to operate and offer their proposed solar energy services, including making the necessary investments in connection with such services in the year following the issuance of the certification.

3. [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] (Attachment 6).

II. CERTIFICATION AS A DR AGGREGATOR

4. On December 10, 2020, the Bureau adopted the *Regulation for Demand Response*, Regulation 9246 ("Regulation 9246"). Among other things, Regulation 9246 required the Puerto Rico Electric Power Authority ("PREPA") or its successor, LUMA Energy, LLC and LUMA Energy ServCo, LLC (jointly, "LUMA"), to file a three-year Demand Response ("DR") Plan within six months of the effective date of the Regulation and to develop a demand response program to provide cost effective DR resources under its DR Plan.
5. On February 1, 2022, the Energy Bureau issued a Resolution and Order which, among other things, required that LUMA file the DR Transition Period Plan ("TPP").

Confidential Treatment Requested

6. Thereafter, on June 21, 2022, LUMA submitted its Proposed TPP to the Honorable Energy Bureau. As part of the TPP, and in compliance with its Regulation 9246 mandate, LUMA launched an Emergency DR program.
7. Pursuant to Section 2.02 of Regulation 9246, DR Aggregators must, in addition to meeting the requirements of Regulation 8701, provide the following information in their request for certification: (a) describe the type of DR resources it seeks to develop and aggregate; (b) identify the DR program or programs offered by PREPA that it intends to utilize on behalf of its customers; (c) provide its privacy and data security policy; and (d) if the DR Aggregator intends to serve residential or small commercial customers, provide the standard form letter or electronic communication and agreement to be submitted to each customer explaining the terms and conditions of participating in the DR service as required by Section 2.03(A)(1) of the Regulation.
8. In compliance with Section 2.02 of Regulation 9246 and the applicable requirements of Regulation 8701, SunStrong hereby respectfully requests that this Honorable Energy Bureau take notice of its intent to utilize LUMA's BEDPR on behalf of its customers.
9. SunStrong is committed to developing and aggregating DR resources through its Customer Battery Energy Sharing ("CBES") Program and SunStrong Virtual Power Plant Rewards Program. The CBES Program and SunStrong Virtual Power Plant Rewards Program provide SunStrong customers under the opportunity to participate in LUMA's BEDRP. Under the BEDRP, the CBES Program and SunStrong Virtual Power Plant Rewards Program, participants receive compensation for operating their behind-the-meter batteries during times when all generation resources are in use, and LUMA determines that it will not be able to meet the forecast energy requirements ("BEDPR Events"). During BEDRP Events, SunStrong will dispatch customer's battery energy

Confidential Treatment Requested

storage systems (“BESS”). Importantly, SunStrong maintains discretion over the participation of devices in BEDRP Events, prioritizing concerns such as grid resiliency and potential grid failures. This approach ensures that while contributing to the stabilization of the grid, the program also considers the safety and reliability needs of the participants.

10. SunStrong hereby provides this Honorable Energy Bureau with copies of its Privacy and Data Security Policy (**Attachment A**) and the standard electronic communications (**Attachment B**) submitted to its customers regarding the CBES Program and SunStrong Virtual Power Plant Rewards Program.
11. Moreover, in compliance with Section 5.01 of Regulation 9246, SunStrong respectfully attaches a copy of its Annual Report as part of the operational report submitted in SunStrong’s request for certification as an electric service company (See **Attachment 2.01**).

III. REQUEST FOR CONFIDENTIAL TREATMENT

12. SunStrong hereby respectfully requests that confidential treatment be afforded to this motion and its corresponding attachments. Section 6.15 of Act 57-2014 provides:

If a person having the obligation to submit information to the Energy [Bureau] understands the information to be submitted is privileged or confidential, [such person] may request said [Bureau] to give [privileged or confidential] treatment subject to the following:

(a) if the Energy [Bureau], after due evaluation, understands the information should be protected, it shall find a way to grant this protection in the manner that impacts less the public, transparency and the rights of the parties involved in the administrative proceeding under which the alleged confidential document is being filed.

Confidential Treatment Requested

(b) To such effects, the Energy [Bureau] may grant access to the document, or to portions of the document that are privileged, only to counsel and external consultants involved in the administrative proceeding after execution of a confidentiality agreement.

(c) The Energy [Bureau] shall keep documents presented before it completely out of public scrutiny only in exceptional cases. In such cases, the information shall be duly safeguarded and delivered exclusively to Energy [Bureau] personnel on a need-to-know basis, under non-disclosure rules. However, the Energy [Bureau] shall order that a non-confidential version for public review be submitted.

(d) Any claim of privileged or confidential information by a person under the jurisdiction of the Energy [Bureau] must be ruled in an expedited manner by the [Bureau] through a resolution to such effects, before any confidential information alleged by a party is disclosed.

13. In turn, Section 1.15 of Regulation 8701 provides that when a person who is required to submit information to the Energy Bureau considers such information to be privileged or confidential, the person shall identify the information it deems privileged or confidential, request the Energy Bureau to protect such information, and present arguments supporting the privilege or confidentiality claim. The Energy Bureau shall evaluate the petition and, if it concludes the information merits protection, it shall proceed pursuant to Section 6.15 of Act 57-2014.

14. SunStrong respectfully requests that all the information contained in this motion and attached hereto be kept confidential in accordance with Section 1.15 of Regulation 8701. In compliance with the process to designate confidential information, SunStrong shall submit under separate cover redacted versions of the documents for which confidential treatment is sought. These documents have sensitive information, otherwise not available to the public, which SunStrong prefers not to disclose and that could place SunStrong at a competitive disadvantage.

Confidential Treatment Requested

15. SunStrong respectfully requests that this Honorable Energy Bureau only grant access to said information to internal Energy Bureau personnel, counsel, and consultants subject to the execution of a confidentiality agreement.

WHEREFORE, SunStrong Management LLC respectfully requests that the Honorable Bureau take notice of this Motion to Request Certification as an Electric Service Company and as a DR Aggregator and Request for Confidential Treatment, declare SunStrong a certified electric service company, and a certified DR Aggregator, and afford confidential treatment to this motion and its corresponding attachments.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, on October 28, 2025.

Requirement: Sec. 2.02(A)(1)(a) of Regulation 8701
Projection of the percent of total demand intended to meet in Puerto Rico.

Response: Per the Puerto Rico Electric Power Authority's ("PREPA") draft Integrated Resource Plan 2018-2019 dated June 7, 2019 (the "Draft IRP"), PREPA forecasts a total energy demand of 18,689 GWh for fiscal year 2025, before Energy Efficiency. See Exhibits 3-11 and 3-12 of the Draft IRP, Ex. 1.0. After Energy Efficiency, PREPA forecasts a total energy demand of 16,375 GWh for the fiscal year 2025. See Exhibit 3-16 of the Draft IRP. However, considering the impact of customer-owned generation (distributed generation and combined-heat and power) as well as the aforementioned Energy Efficiency, PREPA forecasts a total energy demand of 14,996 GWh (or 14,996,000 MWh) for fiscal year 2025. See Exhibit 3-18 of the Draft IRP.
