**OBJECTION OF OFFICIAL COMMITTEE OF UNSECURED CREDITORS OF PREPA
TO APPLICANT TESTIMONY, INTERVENOR TESTIMONY,
AND PREB CONSULTANT REPORTS**

To the Honorable Puerto Rico Energy Bureau:

In accordance with the Hearing Examiner’s Order on Rate Case Procedures dated September 29, 2025, Intervenor the Official Committee of Unsecured Creditors of PREPA (the “Committee”)¹ respectfully submits these objections (the “Objections”) to the: (i) Direct Testimony of Andrew Smith (“A. Smith”), LUMA’s Chief Financial Officer, dated July 2, 2025 (“A. Smith Direct Testimony”); (ii) Direct Testimony of Alejandro Figueroa, LUMA’s Chief Regulatory Officer, dated July 2, 2025 (“Figueroa Direct Testimony”); (iii) the Direct Testimony of Susan Tierney, Ph.D., (“Tierney”) a retained consultant by the Non-Settling Bondholders,² dated September 2, 2025 (the “Tierney Answering Testimony”); and (iv) the Expert Report of Ralph C. Smith and Mark S. Dady dated October 6, 2025 (the “Smith & Dady Report”). In support of its Objections, the Committee respectfully represents, as follows:³

I. PRELIMINARY STATEMENT

1. An array of witnesses utilize, rely on, and tacitly accept “legacy debt” figures and scenarios that are fundamentally flawed in their reasoning and materially undercount PREPA’s total legacy debt by **billions of dollars**. The Committee represents the interests of holders of more than \$4 billion of general unsecured claims against PREPA that pre-date the filing of PREPA’s Title III case.⁴

2. Importantly, none of the claims of PREPA’s general unsecured creditors appear to be a part of the various debt figures and scenarios presented to date in this proceeding. Those

¹ The Committee was granted Intervenor status by order dated May 21, 2025.

² Tierney is “testifying on behalf of National Public Finance Guarantee Corporation, GoldenTree Asset management LP, Syncora Guarantee, Inc., Assured Guaranty Inc., and the PREPA Ad Hoc Group,” the members of which “are listed in the Ninth Verified Statement of the PREPA Ad Hoc Group pursuant to Bankruptcy Rule 2019, Dkt. No. 5797, In re Fin. Oversight & Mgmt. Bd. For Puerto Rico, Case No. 17-BK-04780-LTS, August 28, 2025.” Tierney Answering Testimony at 4:14-18, *id.* at n.1.

³ Pursuant to the Bureau’s orders, a Spanish summary of this filing is attached hereto as Appendix A.

⁴ Capitalized terms not defined herein have the same meaning as used within the Committee’s prior submissions in this proceeding, or alternatively, within PREPA’s Title III case.

scenarios were intended—and required—to be premised on, and derive their inputs from, **all** debts that are subject to adjustment in PREPA’s Title III case, which remains pending under PROMESA. Despite public filings in PREPA’s Title III case that quantify the claims of general unsecured creditors, and which would increase the amount of PREPA’s total debt by more than 40%, general unsecured claims are inexplicably omitted from **every relevant schedule**.

3. Beyond failing to disclose the total amount of PREPA’s legacy debt, the answering testimony submitted to date also fails to account for the numerous contingencies surrounding the hundreds of claims asserted against PREPA, which represent significant and important issues that the Title III Court will have to decide before there is any credible figure of legacy debt for PREB to evaluate. Thus, the Committee submits that it is premature for PREB to consider what legacy debt, if any, should be incorporated into the electricity rates for the period under review, and agrees with the recommendation in the Smith and Dady Report that PREB should first defer to the Title III Court to determine the amount, priority, and validity of the numerous claims that have been asserted against PREPA.⁵

4. Determinations regarding the amount, priority, and validity of the countless claims asserted against PREPA are the sole province of the Title III Court. The Committee has no intention to litigate these issues within this proceeding (and does not believe it appropriate for any other participants to attempt to do so) because those questions can **only** be resolved by the Title III Court, which has exclusive federal jurisdiction under Title III of PROMESA to resolve the allowance and priority of claims against PREPA. Indeed, other regulatory agencies that have been confronted with the issue of what legacy debt to include, if any, on account of a utility that is the subject of a bankruptcy case have deferred in favor of the bankruptcy court to decide issues regarding the amount, priority, and validity of debts asserted against the bankrupt utility. *See, e.g.,* California Public Utilities Commission, *Decision Approving Reorganization Plan*, at 110-112 (May 28, 2020) (regulator accepted amount of debt to be repaid, including for general unsecured claims, within PG&E’s Chapter 11 Plan of Reorganization as confirmed by the U.S. Bankruptcy Court for the Northern District of California); New Orleans City Council, *Resolution and Order Approving Agreement in Principle*, at 12 (Oct. 27, 2006) (following Fourth Amended Chapter 11 Plan of Reorganization of Energy New Orleans, Inc., which encompassed general unsecured claims, after its confirmation by the U.S. Bankruptcy Court for the Eastern District of Louisiana).

⁵ That determination will include whether, and the extent to which, general unsecured claims have priority over the claims of PREPA’s bondholders.

5. To the extent PREB, nevertheless, believes it appropriate or necessary to include some placeholder amount of debt while issues regarding the amount, priority, or validity of legacy claims against PREPA are determined by the Title III Court, the Committee submits that such placeholder amount must include the full amount of all general unsecured claims that have been filed and which remain outstanding in PREPA's Title III case. In other words, this proceeding must consider, as PREB directed, **all** of PREPA's debts that fall within the scope of the PREPA's Title III case—and that necessarily means consideration of the billions of dollars in claims asserted by PREPA's general unsecured creditors.

6. Accordingly, the A. Smith Answering Testimony, the Figueroa Answering Testimony, the Tierney Answering Testimony, and the Smith and Dady Expert Report should be stricken to the extent that they: (i) opine that PREB, as opposed to the Title III Court, can decide issues regarding the amount, priority, and validity of claims asserted against PREPA; or (ii) rely on debt figures that exclude the total amount of general unsecured claims that have been asserted against PREPA.

II. APPLICANT TESTIMONY AND SUBMISSIONS

7. The Committee objects to the A. Smith Direct Testimony and LUMA's related Schedule B-3 and Schedule B-4 (collectively, the "LUMA Low/Full Legacy Debt Scenarios") on the basis that each of them fails to comply with the *Resolution and Order*, dated February 12, 2025, governing this proceeding and grossly understates **all** of PREPA's unsecured debts and liabilities. The referenced *Resolution and Order* required LUMA to submit "a summary of debt service requirements," including "for the debt that is subject to the Title III process, the debt service requirement associated with each of two scenarios: the Legacy Debt-Low Scenario and the Legacy Debt-Full Scenario."⁶ *Id.* at 29.

8. Although the A. Smith Direct Testimony recites the language from the foregoing *Resolution and Order* and claims the LUMA Low/Full Legacy Debt Scenarios complies with those requirements, that is facially erroneous and, therefore, renders his testimony and the related schedules inadmissible because they are necessarily irrelevant and more prejudicial than probative of the issues within this proceeding. Schedule B-3 was required to include "the **full**, nominal **existing debt** and accrued interest that are subject to the Title III case," but it **omits billions of**

⁶ "'Legacy Debt-Low Scenario' means the Federal Oversight Management Board's most recent public proposal for settlement of the debt that is subject to the Title III proceeding." "Legacy Debt-Full Scenario" means the full, nominal existing debt and accrued interest that are subject to the Title III proceeding." *Id.* at 24.

dollars of PREPA’s debt that is squarely within the jurisdiction of PREPA’s Title III case. For example, the “full scenario” includes: (i) the claims of the “Fuel Lines” in an amount of more than \$700 million; (ii) “Legacy Bonds” in an amount of approximately \$8.5 billion; and (iii) “Pension Obligation” in an amount of more than \$337 million (Schedule B-3 at 2), but omits the **more than \$4 billion of claims asserted by general unsecured creditors** in PREPA’s Title III case, of which more than \$2 billion are *prima facie* valid.

9. In particular, as the claims agent reported to the Title III Court in February 2024:

there are **2,508** general unsecured claims asserted and one (1) scheduled claim against PREPA which have not been disallowed or expunged, totaling **\$6,271,293,340.56**, in current amount. . . .⁷

In addition, the claims agent further reported that:

PREPA has filed multiple objections seeking to disallow and expunge claims in whole or in part as to which the Court has not yet entered final orders. . . . If the [Title III] Court grants such objections as filed, there will be **1,885** general unsecured claims and 1 scheduled claim asserted against PREPA which have not been disallowed or expunged, totaling **\$3,401,591,973.93** on current amount.

In other words, as of February 2024, more than \$6.2 billion in general unsecured claims remained pending against PREPA, of which more than \$3.4 billion had not been objected to, which means that, pursuant to section 502 of the Bankruptcy Code, those claims are *prima facie* valid.⁸

10. The Committee recognizes that, since February 2024, the Oversight Board has filed objections to certain additional claims, including an objection to a \$1.2 billion claim asserted by one of PREPA’s unions (which objection the Title III Court has granted),⁹ as well as a series of omnibus objections to (much) smaller claims totaling less than \$20 million in the aggregate.¹⁰ However, even if these objections are taken into account, the remaining universe of pending general unsecured claims against PREPA well exceeds **\$4 billion**, of which—again—more than **\$2 billion** are currently *prima facie* valid.

11. The A. Smith Direct Testimony is inaccurate as a consequence of materially deficient information about the facts and data within them and the means by which that information

A copy of the Berman Declaration, including the exhibits thereto, are attached hereto as Exhibit 1.

⁸ 11 U.S.C. § 502(a) (“A claim or interest, proof of which is filed under section 501 of this title, is deemed allowed, unless a party in interest, including a creditor of a general partner in a partnership that is a debtor in a case under chapter 7 of this title, objects.”)

came across Mr. A. Smith's desk. With full transparency, Mr. A. Smith concedes he is testifying about matters that are not within his personal knowledge because he is merely a conduit for information that he obtained from PREPA:

Q.57 What is the source of the information in this schedule [B-3] and where are the calculations shown for this schedule [B-3]?

A. **This information was provided to LUMA by PREPA.** The purpose of PREPA's Title III case is to restructure its legacy debt. **These figures are provided for illustrative purposes,** and to meet the Energy Bureau's filing requirements, because PREPA's Title III bankruptcy process remains ongoing.

A. Smith Direct Testimony at 46:920-25 (emphasis added); *see also id.* at 46:926-47:936 (acknowledging that Schedule B-4 is entirely derivative of Schedule B-3, and was obtained in the same, hearsay manner; "Schedule B-4 contains, for each of the debt service requirements identified in Schedule B-3"). The same fallacy, and bar to admissibility, also applies to the LUMA Low/Full Legacy Debt Scenarios, so these two documents also cannot be deemed admissible.

12. The Committee also objects to the Figueroa Direct Testimony, on the same grounds as the A. Smith Direct Testimony and the LUMA Low/Full Legacy Debt Scenarios. The Committee's objection specifically includes Question 47, and Mr. Figueroa's response thereto. *See* Figueroa Direct Testimony 39:715-723 (adding to the basis for a hearsay objection; "The costs for PREPA's legacy debt that are the subject of Title III are included in PREPA's revenue requirement.").

13. To compile any correct scenario for PREPA's debt that is subject to PREPA's Title III case, A. Smith and Figueroa should have reviewed the most recent disclosure statement filed by the Oversight Board, as PREPA's sole Title III representative, in PREPA's Title III case.¹¹ *See Disclosure Statement for Fifth Amended Title III Plan of Adjustment of the Puerto Rico Electric Power Authority*, Case No. 17-04780-LTS [Docket No. 5582] at 60 ("Currently, 2,406 General Unsecured Claims asserting liabilities totaling \$4.9 billion remain outstanding. Several of those remaining claims are subject to Oversight Board claim objections that are pending court orders; excluding claims pending on an objection, 1,750 General Unsecured Claims asserting approximately \$2.1 billion remain pending against PREPA.").

III. PREB CONSULTANT REPORTS

14. The Committee also objects to the Smith & Dady Report on two discrete grounds.

¹¹ At this time, no Title III plan has been confirmed for PREPA and, therefore, the treatment of any claims under any such plan remains to be determined.

15. Foremost, the construct of “Legacy Debt,” as that phrase is used within the Smith & Dady Report, may be intended by its authors, or construed within this proceeding, in a manner that fails to include **all** of PREPA’s unsecured debts. *See, e.g.*, Smith & Dady Report at 9 (referring to “debt service payments, consisting of principal and interest payment requirements”); *id.* at 10 (“Because of its financial situation, including the Title III bankruptcy, PREPA has not been making principal and interest payments on Legacy Debt”); and *id.* at 11 (“No payments of principal or interest on PREPA’s legacy debt have been or are currently being made”). Many, if not all, of the claims of general unsecured creditors are subject to “debt service” and, indeed, many of those were intended to be paid by PREPA in its ordinary course. Therefore, no “interest” would have ever accrued (provided payment was timely made), and many trade creditors do not customarily consider their unpaid accounts receivables from PREPA as “principal.” Therefore, the Committee objects to any definition of Legacy Debt that does not include general unsecured claims against PREPA.

16. The Committee’s second, related objection is that the **amount** of “Legacy Debt” contemplated within the Smith & Dady Report relies on the LUMA Low/Full Legacy Debt Scenarios. Smith & Dady Report § VI.A.; *id.* Tables 1-2. Because the LUMA Low/High Legacy Debt Scenarios are incomplete and flawed, the Committee’s objections necessarily extend to the use and reliance on this same information with the Smith & Dady Report.

17. Importantly, the Committee concurs with the conclusions set forth in the Smith & Dady Report that PREB should defer to the Title III Court any determinations regarding the amount, priority, and validity of legacy claims against PREPA that can or should be included as part of the electricity rates or in a separate rider.

IV. INTERVENOR TESTIMONY

18. The Committee also objects to the Tierney Answering Testimony.

19. In multiple passages of the Tierney Answering Testimony, Tierney appears to narrow, improperly, PREPA’s debt to only that incurred as a result of the issuance of bonds by PREPA or other traditional financing efforts. *See, e.g.*, Tierney Answering Testimony at 13:1-11 (referencing exclusively “financing cost” as a “debt-related expenses” and “debt raised from capital markets” like “financing tools ... such as long-term bond issuances” and other “debt instruments”); *id.* at 17:2-18:7 (although the Committee disagrees with the Non-Settling Bondholders’ asserted entitlement to post-petition interest, Tierney’s critique of the completeness

and accuracy of LUMA Low/Full Legacy Debt Scenarios supports the Committee’s contentions as to their inaccuracy, although for different reasons). Tierney, like other witnesses, appears to jettison, improperly, PREPA’s **other** obligations that are owed to its general unsecured creditors which, as noted, amount to billions of dollars.

20. The Tierney Answering Testimony is also internally inconsistent and contradictory. Aspects of her testimony, including those noted above, cabin PREPA’s “debt” exclusively to bonds, loans, instruments, and other formalized lending and financing transactions. Yet, other portions of that same testimony recognize, as Tierney must, that the true “cost of service” is very broad and must include all of PREPA’s expenses. Otherwise, the revenue requirement cannot be accurate, which will have cascading implications on the rates set within this proceeding. The Tierney Answering Testimony states, in relevant part:

For a publicly owned utility, the **cost of service generally includes ... its cost of capital (e.g., principal and interest on outstanding debt); ... its contractual obligations; and other expenses.**

(Tierney Answering Testimony at 9:15-10:6 (emphasis added)). The Committee objects to Tierney’s Answering Testimony, then, on the basis that it does not adhere to the very standards that it acknowledges must apply to this proceeding and provides no justification for ostensibly excluding unsecured creditors from any consideration.

21. The Committee, therefore, objects to all of Tierney’s testimony that ignores, or is silent as to, the obligations PREPA owes to its general unsecured creditors who never agreed to accept an “instrument or “security,” or be a lender to PREPA for any term. Yet, general unsecured creditors are having their claims adjudicated within PREPA’s Title III case and were required to be counted under the terms of the foregoing *Resolution and Order*. While unclear from Tierney’s Answering Testimony whether, much less how, she has considered the claims of PREPA’s unsecured creditors, the Committee objects to any implicit conclusions or reasoning that may be inherent or assumed within that testimony about the Non-Settling Bondholders having priority over unsecured creditors (or any suggestion that unsecured creditors should not receive consideration for their claims within PREPA’s Title III case).¹²

¹² The Committee objects on the same basis it has objected to the testimony and documents of A. Smith and Figueroa. Further, Tierney is not qualified to opine on legal issues, and the Tierney Answering Testimony provides a lasting exemplar that she must not be permitted to testify on quintessential legal questions. Specifically, Tierney testified that the “2025 Fiscal Plan is effectively obsolete” due to the “recent terminations of six out of seven” members of the Oversight Board. Whether Tierney was simply parroting perspectives of counsel for the Non-Settling Bondholders or expressing her own conclusions is irrelevant, but the District of Puerto Rico has conclusively held that *no terminations* of any members of the Oversight Board by President Trump ever occurred or were effective. *Gonzalez v. Gor*, Case No. 25-1508 (MAJ), *Opinion and Order*, [Docket No. 88] (D.P.R. Oct. 3, 2025) (granting preliminary injunction “from effectuating in any manner the attempted removal of Plaintiffs from their positions as a members of the

I am over the age of eighteen and not a party to the above-captioned cases under Title III of PROMESA. I am authorized to submit this Declaration on behalf of Kroll.

2. I submit this Declaration in connection with the *Corrected Fourth Amended Title III Plan of Adjustment of the Puerto Rico Electric Power Authority*, dated December 29, 2023 (as the same may be amended or modified, including all exhibits and supplements thereto, the “Plan”) [Case No. 17-BK-4780-LTS, ECF No. 4345].³ My statements set forth in this Declaration are based on my personal knowledge, knowledge that I acquired from individuals under my supervision, information provided to me by the Debtor and its agents, counsel, and other professionals, and my review of relevant documents.

3. Kroll was authorized by the Court in these Title III cases to, among other things, “maintain official claims registers (with full proofs of claim) for the Debtors on the website to be maintained by Prime Clerk for these Title III Cases” *See Order Authorizing Employment and Payment of Prime Clerk LLC as Solicitation, Notice, and Claims Agent, Nunc Pro Tunc to the Petition Dates* [Case No. 17-bk-3283, ECF No. 245]. In connection with my work at Kroll, I am responsible for, among other things, maintenance of the claims register in the Title III Cases, including PREPA’s Title III Case. Accordingly, I am familiar with PREPA’s Title III claims register and the claims included therein, including the amounts asserted in the proofs of claim and the categories of claims filed.

² Effective March 29, 2022, Prime Clerk LLC changed its name to Kroll Restructuring Administration LLC.

³ Docket references contained herein shall refer to the docket for Case No. 17-BK-4780-LTS unless otherwise specified.

4. In the ordinary course of Kroll's duties of maintaining the official claims registers in these Title III Cases, Kroll employees ensured that each claim submitted to Kroll was date-stamped, scanned (if submitted on paper), assigned a claim number, and entered into Kroll's proprietary claims database at or around the time it was received, which stores the official claims registers. Kroll regularly updates the official claims register to reflect claims that are either allowed or disallowed and expunged by court order. Additionally, Kroll has a robust set of quality assurance and audit procedures in place to ensure the accuracy of the official claims registers.

5. Attached hereto as **Exhibit A** is a schedule reflecting all claims currently categorized on PREPA's Title III claims registry as general unsecured claims, excluding claims which have been disallowed and expunged by order of the Title III court and claims not considered general unsecured claims for purposes of the Plan. **Exhibit A** was prepared at my direction and under my supervision. As reflected on **Exhibit A** hereto, there are 2,508 general unsecured claims asserted and one (1) scheduled claim against PREPA which have not been disallowed or expunged, totaling \$6,271,293,340.56 in current amount.

6. PREPA has filed multiple objections seeking to disallow and expunge claims in whole or in part as to which the Court has not yet entered final orders. Those claims are identified with a "Y" on the column marked on **Exhibit A** "Pending Objection Seeking to Disallow and Expunge." If the Court grants such objections as filed, there will be 1,885 general unsecured claims and 1 scheduled claim asserted against PREPA which have not been disallowed or expunged, totaling \$3,401,591,973.93 in current amount.

7. Attached hereto as **Exhibit B** is a schedule reflecting all claims currently categorized on PREPA's Title III claims registry as federal government claims, excluding claims which have been disallowed and expunged by order of the Title III court. **Exhibit B** was prepared at my direction and under my supervision. As reflected on **Exhibit B** hereto, there are three (3)

federal government claims asserted against PREPA which have not been disallowed or expunged, totaling \$16,859,577.28 in current amount

8. Attached hereto as **Exhibit C** is a schedule reflecting all claims currently categorized on PREPA's Title III claims registry as eminent domain claims, excluding claims which have been disallowed and expunged by order of the Title III court. **Exhibit C** was prepared at my direction and under my supervision. As reflected on **Exhibit C** hereto, there are 20 eminent domain claims asserted against PREPA which have not been disallowed or expunged, totaling \$20,273,249.96 in current amount.

RESUMEN PARA EL PÚBLICO SOBRE:
OBJECCIÓN DEL COMITÉ OFICIAL DE ACREEDORES NO ASEGURADOS DE LA
AEE AL TESTIMONIO DEL SOLICITANTE, AL TESTIMONIO DEL INTERVENTOR
Y A LOS INFORMES DE LOS CONSULTORES DEL NEPR

El Comité Oficial de Acreedores No Asegurados de la AEE (el “Comité”) provee este resumen en español de su *Objección del Comité Oficial de Acreedores No Asegurados de la AEE Al Testimonio del Solicitante, Al Testimonio del Interventor y a los Informes de los Consultores del NEPR*.

I. DECLARACIÓN PRELIMINAR

1. Una serie de testigos utilizan, confían en y aceptan tácitamente cifras y escenarios de “deuda heredada” que son fundamentalmente defectuosos en su razonamiento y subestiman sustancialmente la deuda heredada total de la AEE en **billones de dólares**. Cabe destacar que ninguna de las reclamaciones de los acreedores generales no asegurados de la AEE parece formar parte de las diversas cifras y escenarios de deuda presentados hasta la fecha en este procedimiento. Se pretendía—y se requería—que esos escenarios se basaran en, y derivaran sus insumos de, **todas** las deudas que están sujetas a ajuste en el caso del Título III de la AEE, que sigue pendiente bajo PROMESA. Incluir las reclamaciones de los acreedores generales no asegurados aumentaría el monto total de la deuda de la AEE en más del 40%, sin embargo, las reclamaciones generales no aseguradas se omiten inexplicablemente de **todos los anexos pertinentes**.

2. Además de no revelar el monto total de la deuda heredada de la AEE, el testimonio de contestación presentado hasta la fecha tampoco considera las numerosas contingencias en torno a los cientos de reclamaciones interpuestas contra la AEE, las cuales representan cuestiones significativas e importantes que el Tribunal del Título III deberá resolver antes de que el NEPR pueda evaluar una cifra creíble de deuda heredada. Por lo tanto, el Comité sostiene que es prematuro que el NEPR considere qué deuda heredada, si la hubiera, debería incorporarse a las tarifas eléctricas para el período en revisión, y coincide con la recomendación del Informe Smith

y Dady de que el NEPR deba primero diferir que el Tribunal del Título III determine el monto, la prioridad y la validez de las numerosas reclamaciones interpuestas contra la AEE.¹

3. Las determinaciones sobre el monto, la prioridad y la validez de las innumerables reclamaciones interpuestas contra la AEE son competencia exclusiva del Tribunal del Título III. Otras agencias reguladoras que se han enfrentado al problema de qué deuda heredada incluir, si corresponde, a cuenta de una empresa de servicios públicos objeto de un caso de quiebra, han optado por dejar en manos del tribunal de quiebras la decisión sobre el monto, la prioridad y la validez de las deudas interpuestas contra la empresa de servicios públicos en quiebra. Véase, e.g., California Public Utilities Commission, *Decision Approving Reorganization Plan*, a las p. 110-112 (28 de mayo de 2020); New Orleans City Council, *Resolution and Order Approving Agreement in Principle*, a la p. 12 (27 de octubre de 2006).

4. En la medida en que PREB, no obstante, considere apropiado o necesario incluir algún monto provisional de deuda mientras el Tribunal del Título III determina las cuestiones relacionadas con el monto, la prioridad o la validez de los reclamos heredados contra la AEE, el Comité sostiene que dicho monto provisional debe incluir el monto total de todos los reclamos generales no asegurados que se han incoado y que siguen pendientes en el caso del Título III de la AEE.

II. TESTIMONIO Y PRESENTACIONES DEL SOLICITANTE

5. El Comité objeta el testimonio directo de Andrew Smith (“A. Smith”), Director Financiero de LUMA, de fecha 2 de julio de 2025 (“Testimonio Directo de A. Smith”) y los Anexos B-3 y B-4 relacionados de LUMA (en conjunto, los “Escenarios de Deuda Heredada Baja/Completa de LUMA”) sobre la base de que cada uno de ellos no cumple con la *Resolución y Orden*, de fecha 12 de febrero de 2025, que rige este procedimiento y subestima enormemente **todas** las deudas y pasivos no asegurados de la AEE. La referida *Resolución y Orden* exigía a LUMA que presentara “un resumen de los requisitos de servicio de la deuda”, incluyendo “para la deuda sujeta al proceso del Título III, el requisito de servicio de la deuda asociado con cada uno de los dos escenarios: el Escenario de Deuda Heredada Baja y el Escenario de Deuda Heredada Total”.² *Id.* a la p. 29.

¹ Esa determinación incluirá si, y en qué medida, las reclamaciones generales no aseguradas tienen prioridad sobre las reclamaciones de los tenedores de bonos de la AEE.

² “‘Escenario de Deuda Heredada Baja’ se refiere a la propuesta pública más reciente de la Junta de Supervisión y Administración Financiera para la liquidación de la deuda sujeta al procedimiento del Título III”. “‘Escenario de Deuda Heredada Total’ se refiere a la deuda nominal total existente y los intereses acumulados sujetos al procedimiento del Título III”. *Id.* a la p. 24.

6. Aunque el Testimonio Directo de A. Smith recita el lenguaje de la mencionada *Resolución y Orden* y afirma que los Escenarios de Deuda Heredada Baja/Total de LUMA cumplen con esos requisitos, eso es superficialmente erróneo y, por lo tanto, hace que su testimonio y los anexos relacionados sean inadmisibles porque son necesariamente irrelevantes y más perjudiciales que probatorios de los asuntos dentro de este procedimiento. Se requirió que el Anexo B-3 incluyera “la **deuda existente nominal completa** y los intereses acumulados que están sujetos al caso del Título III”, pero omite **billones de dólares de la deuda de la AEE** que está directamente dentro de la jurisdicción del caso del Título III de la AEE. Por ejemplo, el “escenario completo” incluye: (i) las reclamaciones de las “Líneas de Combustible” por un monto mayor de \$700 millones; (ii) los “Bonos Heredados” (*Legacy Bonds*) por un monto de aproximadamente \$8.5 billones; y (iii) “Obligación de Pensión” por un monto mayor de \$337 millones (Anexo B-3 a la p. 2), pero omite la **cantidad de más de \$4 billones de reclamaciones incoadas por acreedores generales no asegurados** en el caso del Título III de la AEE, de las cuales más de \$2 billones son válidas *prima facie*.

7. En particular, como informó el agente de reclamaciones al Tribunal del Título III en febrero de 2024:

Hay 2,508 reclamaciones generales no garantizadas presentadas y una (1) reclamación programada contra PREPA que no han sido rechazadas ni eliminadas, por un total de \$6,271,293,340.56, en el monto actual. . . .³

Además, el agente de reclamaciones también informó que:

La AEE ha presentado múltiples objeciones buscando desestimar y anular reclamos total o parcialmente sobre los cuales el Tribunal aún no ha emitido órdenes finales. . . . Si el Tribunal [del Título III] concede dichas objeciones tal como se presentaron, habrá 1,885 reclamos generales no garantizados y 1 reclamo programado presentados contra la AEE que no han sido desestimados ni anulados, por un total de \$3,401,591,973.93 sobre el monto actual.

En otras palabras, a febrero de 2024, más de \$6.2 billones de dólares en reclamaciones generales no aseguradas seguían pendientes contra la AEE, de las cuales más de \$3.4 billones no habían sido objetadas, lo que significa que, de conformidad con la sección 502 del Código de Quiebras, dichas reclamaciones son válidas *prima facie*.⁴

8. El Comité reconoce que, desde febrero de 2024, la Junta de Supervisión ha presentado objeciones a ciertas reclamaciones adicionales, incluyendo una objeción a una

³ *Corrected Declaration of Jessica G. Berman of Kroll Restructuring Administration LLC Regarding Certain Categories of Claims Filed Against the Debtor in Connection with Corrected Fourth Amended Title III Plan of Adjustment of the Puerto Rico Electric Power Authority*, Caso Núm. 17-03283-LTS [Entrada Núm. 26525-1] (la “Declaración de Berman”).

⁴ 11 USC § 502(a).

reclamación de \$1.2 billones presentada por uno de los sindicatos de la AEE (objeción que el Tribunal del Título III ha concedido),⁵ así como una serie de objeciones omnibus a reclamaciones (mucho) menores, que en totalizan menos de \$20 millones.⁶ Sin embargo, incluso si se consideran estas objeciones, el universo restante de reclamaciones generales no aseguradas pendientes contra la AEE supera ampliamente los **\$4 billones**, de los cuales, nuevamente, más de **\$2 billones** son actualmente válidos *prima facie*.

9. El testimonio directo de A. Smith es inexacto debido a información sustancialmente deficiente sobre los hechos y datos que contiene, así como sobre cómo dicha información llegó al escritorio del Sr. A. Smith. Con total transparencia, el Sr. A. Smith admite que está testificando sobre asuntos que no son de su conocimiento personal, ya que simplemente actúa como canalizador de la información que obtuvo de la AEE:

P.57 ¿Cuál es la fuente de la información contenida en este cronograma [B-3] y dónde se muestran los cálculos para este cronograma [B-3]?

R. **Esta información fue proporcionada a LUMA por la AEE.** El propósito del caso del Título III de la AEE es reestructurar su deuda heredada. **Estas cifras se proporcionan con fines ilustrativos** y para cumplir con los requisitos de presentación de la Oficina de Energía, ya que el proceso de quiebra de la AEE bajo el Título III sigue en curso.

Testimonio directo de A. Smith, a la p. 46:920-25 (énfasis añadido); véase también *Id.*, a las p. 46:926-47:936 (donde se reconoce que el Anexo B-4 se deriva íntegramente del Anexo B-3 y se obtuvo igualmente por referencia; “El Anexo B-4 contiene, para cada uno de los requisitos de servicio de la deuda identificados en el Anexo B-3...”). La misma falacia, e impedimento de admisibilidad, también se aplica a los Escenarios de Deuda Heredada Baja/Total de LUMA, por lo que estos dos documentos tampoco pueden considerarse admisibles.

10. El Comité también objeta el testimonio directo de Alejandro Figueroa, Director de Regulación de LUMA, de fecha 2 de julio de 2025 (“Testimonio Directo de Figueroa”), por los mismos motivos que el Testimonio Directo de A. Smith y los Escenarios de Deuda Heredada Baja/Completa de LUMA. La objeción del Comité incluye específicamente la Pregunta 47 y la respuesta del Sr. Figueroa a la misma. Véase el Testimonio Directo de Figueroa 39:715-723 (que amplía el fundamento de una objeción por testimonio de referencia).

11. Para compilar un escenario correcto para la deuda de la AEE que está sujeta al caso del Título III de la AEE, A. Smith y Figueroa deberían haber revisado la declaración de divulgación más reciente presentada por la Junta de Supervisión, como único representante de la AEE bajo el Título III, en el caso del Título III de la AEE.⁷ Véase *Disclosure Statement for Fifth Amended Title III Plan of Adjustment of the Puerto Rico Electric Power Authority*, Caso Núm. 17-04780-LTS [Entrada Núm. 5582] a la p. 60.

III. INFORMES DE CONSULTORES DEL NEPR

12. El Comité también se opone al Informe Pericial de Ralph C. Smith y Mark S. Dady de fecha 6 de octubre de 2025 (el “Informe Smith y Dady”) por dos motivos distintos.

13. En primer lugar, el concepto de “Deuda Heredada”, tal como se utiliza esa frase en el Informe Smith & Dady, puede ser concebido por sus autores, o interpretado en este procedimiento, de una manera que no incluya **todas** las deudas no aseguradas de la AEE. Véase, e.g., el Informe Smith & Dady, a las p. 9-11. Muchas, si no todas, las reclamaciones de los acreedores generales no asegurados están sujetas al “servicio de la deuda” y, de hecho, muchas de ellas debían ser pagadas por la AEE en su curso ordinario. Por lo tanto, no se habrían devengado “intereses” (siempre que el pago se hubiera realizado a tiempo), y muchos acreedores comerciales no suelen considerar sus cuentas por cobrar impagas de la AEE como “principal”. Por lo tanto, el Comité se opone a cualquier definición de Deuda Heredada que no incluya las reclamaciones generales no aseguradas contra la AEE.

14. La segunda objeción relacionada del Comité es que la **cantidad** la “Deuda Heredada” contemplada en el Informe Smith & Dady se basa en los Escenarios de Deuda Heredada Baja/Total de LUMA. Véase, Informe Smith & Dady, § VI.A.; *id.* Tablas 1-2. Dado que los Escenarios de Deuda Heredada Baja/Total de LUMA son incompletos y deficientes, las objeciones del Comité se extienden necesariamente al uso y la confianza en esta misma información en el Informe Smith & Dady.

15. Es importante destacar que el Comité coincide con las conclusiones establecidas en el Informe Smith & Dady de que el NEPR debe diferir al Tribunal del Título III cualquier determinación con respecto al monto, la prioridad y la validez de los reclamos heredados contra la AEE que pueden o deben incluirse como parte de las tarifas de electricidad o en un anexo separado.

IV. TESTIMONIO DEL INTERVENTOR

⁷ En este momento, no se ha confirmado algún plan del Título III para la AEE y, por lo tanto, el trato de cualquier reclamo bajo dicho plan aún está por determinarse.

16. El Comité también se opone al testimonio directo de Susan Tierney, Ph.D., (“Tierney”), una consultora contratada por los tenedores no-transaccionales de bonos, con fecha del 2 de septiembre de 2025 (el “Testimonio de Respuesta de Tierney”) porque: (i) parece limitar, de manera indebida, la deuda de la AEE únicamente a la incurrida como resultado de la emisión de bonos por la AEE u otros esfuerzos de financiamiento tradicionales; y (ii) parece desechar, de manera indebida, **otras** obligaciones que la AEE debe a sus acreedores generales no asegurados y que, como se ha señalado, ascienden a billones de dólares.

17. El Testimonio de Respuesta de Tierney también presenta inconsistencias y contradicciones internas. Algunos aspectos de su testimonio, incluidos los mencionados anteriormente, describen la “deuda” de la AEE exclusivamente con bonos, préstamos, instrumentos y otras transacciones formalizadas de préstamo y financiamiento. Sin embargo, otras partes de ese mismo testimonio reconocen, como debe hacerlo Tierney, que el verdadero “costo del servicio” es muy amplio y debe incluir todos los gastos de la AEE. De lo contrario, el requisito de ingresos no puede ser preciso, lo que tendrá consecuencias en cascada sobre las tarifas establecidas en este procedimiento. El Testimonio de Respuesta de Tierney declara, en su parte pertinente:

Para una empresa de servicios públicos de propiedad pública, el **costo del servicio generalmente incluye...** su costo de capital (por ejemplo, capital e intereses sobre la deuda pendiente);... **sus obligaciones contractuales; y otros gastos.**

(Testimonio de Respuesta de Tierney, 9:15-10:6 (énfasis añadido)). El Comité objeta, entonces, al Testimonio de Respuesta de Tierney, basado en que no se adhiere a los mismos estándares que reconoce que deben aplicarse a este procedimiento y no proporciona ninguna justificación para excluir ostensiblemente a los acreedores no asegurados de cualquier contraprestación.

18. Por lo tanto, el Comité objeta todo testimonio de Tierney que ignora o guarda silencio sobre las obligaciones que la AEE tiene con sus acreedores generales no asegurados, quienes nunca aceptaron un “instrumento” o “garantía”, ni se convirtieron en prestamistas de la AEE por ningún plazo. Sin embargo, las reclamaciones de los acreedores generales no asegurados se están adjudicando en el marco del caso del Título III de la AEE y se les exigió que fueran contabilizados según los términos de la mencionada *Resolución y Orden*. Si bien no queda claro en el Testimonio de Respuesta de Tierney si, y mucho menos cómo, ha considerado las reclamaciones de los acreedores no asegurados de la AEE, el Comité objeta cualquier conclusión o razonamiento implícito que pueda ser inherente o asumido en dicho testimonio sobre la prioridad

de los Tenedores No-Transaccionales de Bonos sobre los acreedores no asegurados (o cualquier sugerencia de que los acreedores no asegurados no deberían recibir consideración por sus reclamaciones en el marco del caso del Título III de la AEE).⁸

V. CONCLUSIÓN

El Comité solicita que se eliminen el Testimonio de Respuesta de A. Smith, el Testimonio de Respuesta de Figueroa, el Testimonio de Respuesta de Tierney y el informe pericial de Smith y Dady en la medida en que estos: (i) opinan que el NEPR, a diferencia del Tribunal del Título III, puede decidir cuestiones relacionadas con el monto, la prioridad y la validez de los reclamos presentados contra la AEE; o (ii) se basan en cifras de deuda que excluyen el monto total de los reclamos generales no asegurados que se han presentado contra la AEE.

⁸ El Comité objeta sobre la misma base que ha objetado el testimonio y los documentos de A. Smith y Figueroa. Además, Tierney no está calificada para opinar sobre cuestiones legales, y el Testimonio de Respuesta de Tierney proporciona un ejemplo duradero de que no se le debe permitir testificar sobre cuestiones legales por excelencia. Específicamente, Tierney testificó que el “Plan Fiscal 2025 es efectivamente obsoleto” debido a las “recientes terminaciones de seis de los siete” miembros de la Junta de Supervisión. El Distrito de Puerto Rico ha sostenido de manera concluyente que *ninguna terminación* de ningún miembro de la Junta de Supervisión por parte del Presidente Trump ocurrió ni fue efectiva. *Gonzalez v. Gor*, Caso Núm. 25-1508 (MAJ), *Opinion and Order*, [Entrada Núm. 88] (D.P.R. 3 de octubre de 2025).
