IN RE: COMPETITIVE PROCUREMENT
FOR NEW GENERATION SOURCES

CASE NO.: NEPR-MI-2025-0001

SUBJECT: Requirement of Information
by the Energy Bureau

**MOTION IN COMPLIANCE WITH NOVEMBER 13, 2025, AND RESUBMISSION OF THE
EXHIBITS**

TO THE HONORABLE ENERGY BUREAU,

COMES NOW the Puerto Rico Electric Power Authority (hereinafter, PREPA) through its undersigned legal representation and, very respectfully, informs and requests as follows:

1. On November 13, 2025, the Energy Bureau of the Puerto Rico Public Service Regulatory Board (Energy Bureau) issued a Resolution and Order (November 13 Resolution) directing PREPA to submit, within five (5) days, (i) all Requests for Clarifications (RFCs) submitted by prospective respondents to RFQ 2025-02, and (ii) the corresponding responses issued by the Puerto Rico Public-Private Partnerships Authority (P3A).

2. RFQ 2025-02 stems from the Energy Bureau's March 19, 2025 Resolution and Order, in which the Bureau found it necessary to assess the cost and availability of modern generation resources to support Puerto Rico's energy policy goals and protect the interests of electricity customers. The Resolution instructed that the procurement process evaluate 2,500 to 3,000 MW of new capacity.

3. Through the March 19 Resolution, the Energy Bureau also ordered PREPA to inform the P3A of its determination to issue an RFP for new generation sources in Puerto Rico so that the P3A could take the necessary actions to initiate the competitive procurement process.

4. On October 17, 2025, the P3A initiated the competitive procurement process for the New Flexible Generation Capacity project by issuing the Request for Qualifications, RFQ 2025-02, thereby commencing the qualifications phase for potential proponents. Accordingly, as directed by the Energy Bureau, the RFQ constitutes a procurement process under the P3A's jurisdiction pursuant to the statutory framework established by Act 12-2018.

5. To comply with the November 13 Resolution, PREPA issued a written request to the P3A on November 14, 2025, requesting a certified copy of all RFCs or, alternatively, a certification confirming that none were submitted.

6. On November 17, 2025, the P3A responded, confirming that RFCs were indeed received and transmitting to PREPA the RFC submissions in their original and unaltered form, as well as the responses issued by the P3A on November 14, 2025.

7. After filing the November 18, 2025 Motion in Compliance, PREPA became aware that one of the folders transmitted to the Energy Bureau could not be opened properly due to a technical error in the zip file structure.

8. To ensure full compliance and provide the Energy Bureau with accessible, complete records, PREPA hereby resubmits to the Energy Bureau all documents as received from P3A.

9. PREPA also requests confidential treatment for the exhibits included in this motion, and incorporates by reference the arguments set forth in the Motion in Compliance filed today.

WHEREFORE, for the reasons stated above, PREPA respectfully requests that the Energy Bureau: (i) take **NOTICE** of the present Motion; (ii) **DEEM** PREPA in compliance with the November 13-Resolution; and (iii) **GRANT** confidential treatment to Exhibits I and II.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 18th day of November 2025.
