**Fortress Power Request for Certification
 Puerto Rico Energy Bureau**

CASE NO: NEPR-CT-2024-0010 Regulation 8701	SUBJECT: Fortress Power Extension Request dated January 28, 2026
--	--

**FORTRESS POWER LLC’S MOTION FOR EXTENSION OF
 CERTIFICATION**

SUBJECT: Fortress Power Extension Request dated January 28, 2026

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

Fortress Power LLC (“Fortress”), by and through the undersigned, respectfully appears before the Puerto Rico Energy Bureau (“Energy Bureau”) and states as follows:

1. Background of the Request

On September 27, 2024, Fortress Power LLC filed before the Energy Bureau of the Puerto Rico Public Service Regulatory Board a request for certification as an Electric Power Service Company pursuant to Regulation No. 8701, under Case No. NEPR-CT-2024-0010.

2. Demand Response Aggregator Status

Fortress operates as a Demand Response Aggregator for LUMA Energy ServCo, LLC (“LUMA”), pursuant to the waiver of certain requirements under Regulation No. 8701 granted by the Energy Bureau in Case No. NEPR-MI-2022-0001, commonly referred to as the January Waiver Resolution.

3. Existing Resolution

The Energy Bureau issued a resolution granting Fortress certification, which was signed on February 7, 2025 (the “Resolution”).

4. **Purpose of the Extension**

Fortress Power seeks an extension of its certification as an Electric Power Service Company for the continued purpose of:

- Installing distributed battery energy storage systems in Puerto Rico; and
- Providing demand response capabilities and related services to LUMA.

5. **Requested Extension Period**

Fortress respectfully requests that the Energy Bureau extend the effectiveness of its certification and corresponding Resolution through **June 2028**, to allow Fortress to continue and expand its participation in the Demand Response Battery Program in Puerto Rico.

6. **Supplemental Documentation**

In support of this Motion, Fortress Power has enclosed the following documentation to satisfy applicable regulatory requirements:

- **Privacy and Data Security Policy**, pursuant to Regulation No. 9246, Section 6.01(A); and
- **Complaint Procedure**, pursuant to Regulation No. 9246, Section 6.03.

7. **Public Interest**

Granting this extension will serve the public interest by supporting grid reliability, promoting the deployment of distributed energy storage resources, and enhancing demand response capabilities within Puerto Rico's electric system.

WHEREFORE, Fortress Power LLC respectfully requests that the Puerto Rico Energy Bureau grant this Motion and extend Fortress Power's certification under Case No. NEPR-CT-2024-0010 through June 2028, and grant any other relief deemed just and proper.

Respectfully submitted,

FORTRESS POWER LLC

NEPR-CT-2024-0010
