

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: ENERGY EFFICIENCY AND DEMAND
RESPONSE TRANSITION PERIOD PLAN

CASE NO: NEPR-MI-2022-0001

SUBJECT: Resolution to Motion for Brief
Extension of Time to Submit the Three -Year
EE and DR Plan.

RESOLUTION AND ORDER

On October 23, 2024, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("October 23 Resolution") through which the Energy Bureau ordered LUMA¹ to file the first Three-Year Energy Efficiency ("EE") and Demand Response ("DR") Plan by July 15, 2025 ("TYP"). The Energy Bureau also extended the Transition Period Plan ("TPP") by six months to December 31, 2025, and ordered LUMA prepare and file a revised TPP and proposed permanent Customer Battery Energy Sharing ("CBES") program and a proposed backup emergency DR program to be implemented by June 2025, subject to monthly reporting starting on January 15, 2025.

On January 31, 2025, LUMA submitted a document titled *Motion to Submit Revised Energy Efficiency and Demand Response Transition Period Plan and Request for Modification of Deadlines Relating to Three-Year Energy Efficiency and Demand Response Plan* ("January 31 TPP Motion"). This motion included as an attachment a revised TPP intended to run through June 30, 2026. The January 31 TPP Motion requested the Energy Bureau to leave without effect the deadlines related to the preparation of the TYP given the delays in the Market Baseline and Potential Study.²

On April 3, 2025, the Energy Bureau issued a Resolution and Order ("April 3 Resolution") through which the Energy Bureau extended the TPP until June 30, 2026; modified the first three-year plan to cover two years, from July 1, 2026 through June 30, 2028 ("2026-2028 EE and DR Plan"); and scheduled a Technical Conference for April 24, 2025 to discuss LUMA's Revised TPP. The April 3 Resolution also established the deadlines of October 1, 2025, and February 1, 2026, to present the draft TYP to interested stakeholders and to file the TYP, respectively.

On April 24, 2025, the Energy Bureau held a Technical Conference. LUMA representatives discussed the agenda items in the April 3 Resolution, including the Revised Proposed TPP.

On September 12, 2025, the Energy Bureau issued a Resolution and Order scheduling a Technical Workshop on September 25, 2025, to discuss the Market Baseline and Potential Studies, and allowing stakeholders to submit written comments on the studies to the Energy Bureau by October 10, 2025. The Energy Bureau shared the Market Baseline and Potential Studies with stakeholders on September 23, 2025, and the lead author of studies presented their results at the Technical Workshop on September 25, 2025.

On October 7, 2025, LUMA submitted a motion ("October 7 Motion") requesting the Energy Bureau change the timeframe to submit written comments to November 7, 2025. LUMA also requested an opportunity for stakeholders to present questions and receive feedback from the study consultants to better understand the study, support their written comments, and instruct the development of LUMA's FY2027 and FY2028 EE targets.

On October 10, 2025, LUMA informed that it had received all requested appendices of the Market Baseline and Potential Study on October 8, 2025.

On November 7, 2025, LUMA filed its comments on the Market Baseline and Potential Study.

¹ LUMA Energy LLC and LUMA Energy ServCo LLC (jointly referred as, "LUMA").

² January 31 Motion, p. 11-12.

On November 25, 2025, the Energy Bureau issued a Resolution and Order regarding the Market Baseline and Potential Study in which it summarized the studies and made related determinations.

On January 22, 2025, LUMA filed a document titled Motion for Brief Extension of Time to Submit the Three-Year EE and DR Plan (“January 22 Motion”), in which LUMA explains and informs that it requires a brief extension of time, until March 2, 2026, to file the TYP.

Upon review, the Energy Bureau **TAKES NOTICE** of LUMA’s request and **GRANTS** LUMA until **March 2, 2026**, to file the TYP.

Be it notified and published.
