REVIEW OF THE PUERTO RICO  
ELECTRIC POWER AUTHORITY'S 10-  
YEAR INFRASTRUCTURE PLAN-  
DECEMBER 2020

**CASE NO. NEPR-MI-2021-0002**

**SUBJECT: Motion Requesting Extension of Time  
to Comply with Resolutions and Orders of  
February 5 and February 11, 2026**

**MOTION REQUESTING EXTENSION OF TIME TO COMPLY WITH  
RESOLUTIONS AND ORDERS OF FEBRUARY 5 AND FEBRUARY 11, 2026**

**TO THE PUERTO RICO ENERGY BUREAU:**

**COME NOW LUMA Energy, LLC, and LUMA Energy ServCo, LLC**, (jointly referred to as “LUMA”), through the undersigned legal counsel and respectfully submit the following:

1. On February 5, 2026, this Honorable Puerto Rico Energy Bureau (“Energy Bureau”) issued a Resolution and Order (“February 5<sup>th</sup> Order”) addressing the Consolidated FEMA Accelerated Award Strategy (“FAASt”) Project Plan (“Consolidated List”) submitted by the Puerto Rico Electric Power Authority (“PREPA”), LUMA and Genera PR, LLC (“Genera”).<sup>1</sup> The Energy Bureau found that LUMA’s portfolio was materially impacted by the Consolidated List, which reduced active transmission and distribution (“T&D”) projects from 571 to 282, leaving 289 projects designated as inactive. Accordingly, the Energy Bureau identified a subset of inactive projects included in Attachment A of the order that must be resubmitted for reactivation using the reserved federal funding identified in the Consolidated List. Thus, the Energy Bureau established an Updated Allocation Framework to reallocate funding and reactivate priority T&D projects. *See*, February 5<sup>th</sup> Order, p. 4.

---

<sup>1</sup> *See Informative Motion to Submit the Consolidated Project Plan* filed on August 8, 2025.

2. The February 5<sup>th</sup> Order also instructed LUMA to file an implementation plan within fifteen (15) calendar days identifying: (1) the specific estimated amount of funds that LUMA proposes to reconcile through the identification of duplication of funding between child projects and equipment and materials PWs cost overlaps, as well as any Section 406 mitigation-related adjustments (as applicable), (ii) confirmation that there are no additional T&D projects with identified or potential damages beyond those included in the inactive project list, and (iii) the estimated timeline required to complete such reconciliation actions in order to support the inclusion of priority inactive T&D projects consistent with the Updated Allocation Framework. *Id.*, pp. 4-5.

3. On February 11, 2026, the Energy Bureau issued another Resolution and Order (“February 11<sup>th</sup> Order”). After further evaluation of the projects identified in Attachment A of the February 5<sup>th</sup> Order, the Energy Bureau determined that modifying the Attachment A project list was appropriate to prioritize projects with higher incurred costs. Therefore, the Energy Bureau ordered PREPA to amend the Consolidated Project List to incorporate the projects identified in the revised Attachment A within ten (10) calendar days of the notification of the February 11<sup>th</sup> Order.

4. LUMA is currently gathering the necessary information to file an implementation plan providing the information required by the February 5<sup>th</sup> Order. However, the February 11<sup>th</sup> Order’s modification of Attachment A to the February 5<sup>th</sup> Order has materially affected the overall timeline for gathering and validating the information needed to file the implementation plan. In light of this modification, LUMA must now undertake additional steps to ensure that its submission aligns with the revised Attachment A. This includes extensive validation of project-level data, much of which must be reviewed and reconciled manually. Given the changes

introduced by the revised Attachment A and the number of personnel required to prepare, draft, and review the implementation plan, LUMA is unable to complete said plan by the February 20, 2026, due date. In view of the above and the need to ensure proper execution of the required request, LUMA respectfully reiterates that it will require additional time to complete the foregoing.

5. In view of the above, LUMA respectfully requests the Energy Bureau to concede a ten (10) day extension, until March 2, 2026, to file the implementation plan in compliance with the February 5<sup>th</sup> Order and the February 11<sup>th</sup> Order.

6. This extension and alignment request is in good faith and is not intended to cause unnecessary delay. LUMA remains committed to complying with the orders issued by the Energy Bureau.

**WHEREFORE**, LUMA respectfully requests that the Energy Bureau **take notice** of the aforementioned, and **grant** an extension until March 2, 2026, to comply with the February 5<sup>th</sup> Order and February 11<sup>th</sup> Order.

**RESPECTFULLY SUBMITTED.**
