IN RE: PUERTO RICO ELECTRIC
POWER AUTHORITY RATE REVIEW

CASE NO.: NEPR-AP-2023-0003

**SUBJECT: Motion Submitting Transcripts
Used by LUMA in its Reply to Rate Design
Briefs**

**MOTION SUBMITTING TRANSCRIPTS USED BY LUMA IN ITS REPLY TO RATE
DESIGN BRIEFS**

**TO THE HONORABLE PUERTO RICO ENERGY BUREAU, AND ITS HEARING
EXAMINER, MR. SCOTT HEMPLING:**

COME NOW LUMA Energy, LLC and LUMA Energy ServCo, LLC, (jointly referred to as “LUMA”), and respectfully state and request the following:

1. Following the conclusion of a six-week long evidentiary hearing held in the captioned proceeding, on December 22, 2025, the Hearing Examiner issued an *Order on Exhibits, Miscellaneous Post-Hearing Matters, and Legal Issues* (“December 22nd Order”).

2. In what is here pertinent, the Hearing Examiner directed that the parties – not the Puerto Rico Energy Bureau (“Energy Bureau”) – manage the production and distribution of hearing transcripts, with the only requirement being roughly simultaneous delivery to all parties and an expectation that the funding entities appoint a single point person for distribution. The Hearing Examiner set March 27, 2026 as the deadline for joint transcript corrections, ordered LUMA’s counsel to organize a process for exchanging and discussing proposed corrections culminating in a single joint submission. He further noted that briefs must cite the transcripts even though final versions may not be available before some briefing deadlines, and that Energy Bureau consultants may contact parties to confirm citation accuracy. *See* December 22nd Order, at p. 6.

3. As this Energy Bureau is aware, beginning December 10, 2025, while the evidentiary hearing was ongoing, counsel for the Bondholders circulated rolling drafts of the hearing transcripts to all parties of record, clearly labeled as rough drafts subject to revision by the transcription company, to facilitate the preparation of post-hearing briefs. During the briefing period, counsel for the Bondholders intermittently circulated *revised* versions for certain hearing days reflecting a further review by the court reporter. As of today, all transcripts have been labeled as **final** by the court reporter. All remain subject, however, to further corrections and the joint process contemplated by the December 22nd Order.

4. In February 2026, LUMA, Bondholders, the Independent Consumer Protection Office (“ICPO”), PREPA’s Employee Retirement System (“SREAE”), Solar United Neighbors (“SUN”) and the Solar and Energy Storage Association of Puerto Rico (“SESA”) (together “SUN/SESA”), the Official Committee of Unsecured Creditors of PREPA, and the Institute of Competitiveness and Economic Sustainability (“ICSE”), all filed their respective briefs regarding rate design.

5. Today, March 3, 2026, LUMA filed *LUMA’s Reply to Rate Design Briefs*.

6. For purposes of convenience and clarity of the record, LUMA hereby submits the specific transcript versions that are cited in *LUMA’s Reply to Rate Design Briefs*. See Attachments.¹

7. These materials are submitted solely to enable the Energy Bureau, its Hearing Examiner, consultants, and parties to confirm page/line citations appearing in *LUMA’s Reply to Rate Design Briefs* and to facilitate review.

¹ Specifically, *LUMA’s Reply to Rate Design Briefs* cites the **revised/final** transcripts for the December 15 and 16 evidentiary hearings. For avoidance of doubt, and regardless of possible duplicity with transcripts filed together with *LUMA’s Rate Design Brief* on February 17, 2026, LUMA is hereby submitting the transcripts that are cited in *LUMA’s Reply to Rate Design Briefs*.

8. LUMA expressly acknowledges that: (i) the transcripts attached remain unofficial; (ii) they have not been formally accepted, approved or adopted as official by the Honorable Energy Bureau; and (iii) they are subject to further corrections, replacement, and conformity with any final, accepted versions.

9. Nothing herein is intended to, nor should be construed to, supersede the correction and joint-submission procedures set for March 27, 2026. LUMA will continue to participate in the organized exchange and discussion of proposed corrections to timely meet the March 27, 2026 joint submission deadline. LUMA reserves all rights to propose corrections, to oppose or accept others' corrections, and to conform any citations previously made to any final, accepted transcript versions without waiver.

WHEREFORE, LUMA respectfully requests that the Energy Bureau **take notice** that the attached working transcripts are being filed for clarity of the record and ease of reference in connection with citations appearing in *LUMA's Reply to Rate Design Briefs*; **permit** their use for citation verification purposes subject to subsequent correction and replacement by the final, accepted versions; and **grant** such other and further relief as may be appropriate.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 3rd day of March, 2026.
