IN RE: REQUEST FOR CERTIFICATION
GLOBAL POWER SOLUTIONS (PR) LLC

CASE NO.: NEPR-CT-2025-0008

SUBJECT: Request for Certification as an
Electric Service Company

MOTION REQUESTING ADDITIONAL TIME TO FILE STATUS UPDATE

TO THE PUERTO RICO ENERGY BUREAU:

COMES NOW Global Power Solutions (PR) LLC (“Global Power”), through the undersigned counsel, and respectfully states and prays:

1. On October 21, 2025, the Puerto Rico Energy Bureau (“Energy Bureau”) issued a Resolution and Order determining, among other things, that certain documents and information required for Global Power’s request for certification as an electric service company remained pending, and granted a period within which Global Power was to provide updates regarding the execution of the agreement for the sale of electrical power to the Puerto Rico Electric Power Authority (“PREPA”) (the “Agreement”).

2. As set forth in the Energy Bureau’s October 21, 2025 Resolution and Order, several certification requirements—including, without limitation, the balance of the applicable filing fee, certified financial statements, and permits—were deferred pending execution of the Agreement.

3. On November 20, 2025, Global Power filed a motion informing the Energy Bureau that the Agreement had not yet been executed and requesting additional time to submit a subsequent status update and comply with outstanding documentation requirements.

4. By Resolution and Order issued on November 24, 2025, the Energy Bureau granted Global Power a sixty (60)-day extension to file its next status update. That deadline was subsequently extended by Resolution and Order issued on January 30, 2026, which granted Global Power an additional ninety (90)-day extension, through April 20, 2026, to provide the next status update.

5. As previously reported to the Energy Bureau, the agreement at issue relates to the emergency temporary power generation procurement process conducted by PREPA, through the Third-Party Procurement Office, under Request for Proposals No. 3PPO-0314-20-TPG2 (the “Procurement Process”).

6. As of the date of this Motion, the Agreement has not been executed. Global Power remains prepared to move forward and is standing by for direction and further action by the relevant Puerto Rico government entities involved in the procurement and approval process and the subsequent evaluation and approval from the Financial Oversight and Management Board of Puerto Rico.

7. Global Power notes that a related administrative proceeding remains pending before this Energy Bureau in Case No. NEPR-MI-2024-0005, involving a motion challenging the Resolution and Order issued on December 11, 2025 which approved, on a conditional basis, a power generation contract between PREPA and Power Expectations LLC resulting from the Procurement Process.

8. Given that the Energy Bureau expressly deferred compliance with several certification requirements pending execution of the Agreement, and that Global Power’s ability to provide a meaningful status update depends on direction and action by Puerto Rico governmental authorities, Global Power respectfully submits that an additional extension is reasonable and warranted.

WHEREFORE, Global Power Solutions (PR) LLC respectfully requests this Honorable Energy Bureau to (1) TAKE NOTICE that, as of the date of this Motion, the Agreement has not been executed; and (2) GRANT Global Power an additional extension for a ninety (90)-day extension, counted from April 20, 2026, to file its next status update regarding execution of the Agreement and compliance with outstanding documentation requirements.

RESPECTFULLY SUBMITTED.

WE HERBY CERTIFY that Global Power has filed hits motion using the electronic filing system of the Energy Bureau, and notified courtesy copy of this motion to counsel for the Puerto Rico Power Authority, Richard Cruz Franchi, Mirelis Valle Cancel and Natalia Zayaz Godoy, via email rcruzfranqui@gmlex.net, mvalle@gmlex.net and nzayas@gmlex.net , respectively.

San Juan, Puerto Rico, on this 20th day of April 2026.
