IN RE: PUERTO RICO ELECTRIC
POWER AUTHORITY RATE REVIEW

CASE NO.: NEPR-AP-2023-0003

SUBJECT: LUMA’s Request for Extension
of Time to Submit Joint Reconciliation Plan
Amendment in Compliance with Final Rate
Order

**LUMA’S REQUEST FOR EXTENSION OF TIME TO SUBMIT JOINT
RECONCILIATION PLAN AMENDMENT IN COMPLIANCE WITH FINAL RATE
ORDER**

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

COME NOW LUMA Energy, LLC and LUMA Energy ServCo, LLC, (jointly referred to as “LUMA”), and respectfully state and request the following:

1. On April 15, 2026, the Puerto Rico Energy Bureau (“Energy Bureau”) issued a Final Resolution and Order on Electricity Rates (“Final Rate Order”) in this proceeding. Among the determinations issued by the Energy Bureau in the Final Rate Order was a reconciliation amount of \$98,641,949 for Fiscal Year (“FY”) 2026. *See* Final Rate Order, Chapter Two, p. 7. This amount is to be collected from customers during FY2027 and exceeds the Energy Bureau-determined revenue requirement for FY2027. *Id.* Since that revenue requirement for FY2027 reflects the system’s needs for FY2027, the FY2026 reconciliation amount is technically a surplus to the system’s FY2027 needs. *Id.*

2. Consequently, the Energy Bureau directed LUMA to propose, no later than May 15, 2026, a joint plan agreed on by the three utilities on how they propose to spend the reconciliation amount during FY2027. *See* Final Rate Order, Chapter Two, p. 7. The joint plan

should be submitted as an amendment to the FY2027 Budget. *Id.* The plan should describe the projects, the specific utility department responsible for each project, each project's total cost, and the approximate timing of spending. *Id.*

3. The joint reconciliation plan amendment ordered by the Energy Bureau requires extensive validation of project-level data. LUMA continues to work toward completing the reconciliation plan required by the Final Rate Order. However, LUMA respectfully states that it will require additional time to complete the reconciliation plan. LUMA is currently finishing validation and reconciliation of the data to be included in the reconciliation plan. Thus, it will need a brief extension of time to complete the submission, until May 20, 2026.

4. Furthermore, Genera PR, LLC (“Genera”) is also requesting the Energy Bureau for a brief extension until May 20, 2026, as well, to submit its reconciliation plan amendment in compliance with the Final Rate Order. Thus, no harm will be caused to any of the three utilities by the extensions sought by LUMA and Genera.

5. This extension and alignment request is in good faith and is not intended to cause unnecessary delay. LUMA remains committed to complying with the orders issued by the Energy Bureau.

WHEREFORE, LUMA respectfully requests that this Energy Bureau take **notice** of the aforementioned and **grant a brief extension** for LUMA and Genera until May 20, 2026, to submit their joint reconciliation plan amendment in compliance with the Final Rate Order.

RESPECTFULLY SUBMITTED.
