**MOTION REQUESTING BRIEF EXTENSION OF TIME TO COMPLY WITH
RESOLUTION AND ORDER**

TO THE HONORABLE ENERGY BUREAU:

COMES NOW, the Puerto Rico Electric Power Authority ("PREPA") through the undersigned counsel, and respectfully state, allege, and pray as follows:

1. On June 17, 2026, the Puerto Rico Energy Bureau ("Energy Bureau") issued a Resolution and Order regarding Proponent No. 3 Proposed Contracts Modifications. In said Resolution and Order, the Energy Bureau addressed the compensation structure applicable to the Solar PV projects proposed by Proponent No. 3 and directed PREPA and Proponent No. 3 to submit revised agreements incorporating one of the alternatives authorized by the Energy Bureau within two (2) days of notification of the Resolution and Order.

2. Since the issuance of the Resolution and Order, PREPA and Proponent No. 3 have been actively engaged in discussions and drafting efforts to implement the modifications required by the Energy Bureau and to ensure that the revised agreements fully comply with the directives set forth therein.

3. The parties have been working diligently to finalize the required revisions. However, certain contractual language remain under review and require additional

coordination between the parties to ensure accuracy and consistency throughout the agreements.

4. Accordingly, PREPA respectfully requests a brief extension of time until June 23, 2026, to submit the revised agreements required by the Resolution and Order. PREPA and Proponent No. 3 have jointly agreed that a short extension is necessary to complete the remaining revisions and ensure that the agreements submitted accurately reflect the requirements and alternatives set forth by the Energy Bureau.

5. The requested extension is made in good faith and will allow the parties to complete the remaining revisions and submit agreements that fully and accurately reflect the requirements established by the Energy Bureau.

6. This request will not prejudice any party and will facilitate compliance with the Energy Bureau's directives.

WHEREFORE, PREPA respectfully requests that the Energy Bureau grant a brief extension of time until June 23, 2026, to submit the revised agreements required by the Resolution and Order dated June 17, 2026.

RESPECTFULLY SUBMITTED

In San Juan, Puerto Rico, on June 22, 2026.
