IN RE: ACCELERATED EVALUATION OF RENEWABLE ENERGY AND ENERGY STORAGE PROJECT PROPOSALS TO SECURE FEDERAL INVESTMENT TAX CREDITS (ITCs)

CASE NO.: NEPR-MI-2025-0005

MOTION REQUESTING EXTENSION OF TIME TO COMPLY WITH RESOLUTION AND ORDER

TO THE HONORABLE ENERGY BUREAU:

COMES NOW, the Puerto Rico Electric Power Authority ("PREPA") through the undersigned counsel, and respectfully state, allege, and pray as follows:

1. On June 12, 2026, the Energy Bureau issued a Resolution and Order regarding Proponent No. 7. In said Resolution and Order, the Energy Bureau determined that the issues previously identified regarding site control, property rights, and permitting had been sufficiently clarified and that the record supported the continuation of the contract negotiation process between PREPA and Proponent No. 7. The Energy Bureau further directed the parties to continue negotiations in good faith, resolve any remaining contractual issues, and determine whether mutually acceptable agreements could be reached for the proposed Solar PV and BESS facilities through separate PPOA and ESSA agreements. The parties were directed to complete negotiations within seven (7) days from notice of the Resolution and Order.

2. Since the issuance of the Resolution and Order, PREPA and Proponent No. 7 have continued engaging in negotiations and exchanging communications in an effort to comply with the Energy Bureau's directives.

3. Notwithstanding the parties' diligent efforts, an unforeseen and extraordinary circumstance has affected the negotiations. Specifically, a close family member of one of Proponent No. 7's principal representatives recently passed away, requiring that individual's

immediate attention to urgent family matters and significantly limiting the availability necessary to finalize the remaining negotiation items.

4. PREPA wishes to emphasize that the parties have not ceased their efforts. To the contrary, they have continued exchanging communications and advancing the negotiation process to the extent practicable under the circumstances. The parties remain committed to completing the negotiations as expeditiously as possible and believe that the additional time requested will allow them to conclude the remaining discussions.

5. Accordingly, PREPA respectfully requests an extension until Friday, June 26, 2026, to complete the negotiations required by the Resolution and Order and to provide the corresponding filing to the Energy Bureau.

6. This request is made in good faith, is not intended to cause unnecessary delay, and will facilitate the completion of meaningful negotiations consistent with the Energy Bureau's directives.

WHEREFORE, PREPA respectfully requests that the Energy Bureau grant the requested extension until June 26, 2026, to comply with the Resolution and Order issued on June 12, 2026, and grant any further relief deemed just and proper.

RESPECTFULLY SUBMITTED

In San Juan, Puerto Rico, on June 22, 2026.

CERTIFICATE OF SERVICE: We hereby certify that this document was filed with the Office of the Clerk of the Energy Bureau using its Electronic Filing System at <http://radicacion.energia.pr.gov/login>.
