IN RE: ACCELERATED EVALUATION OF RENEWABLE ENERGY AND ENERGY STORAGE PROJECT PROPOSALS TO SECURE FEDERAL INVESTMENT TAX CREDITS (ITCs)

CASE NO.: NEPR-MI-2025-0005

SUBJECT: Resolution and Order pertaining Yabucoa Energy, LLC and requesting information

RESOLUTION AND ORDER

On June 18, 2026, the Puerto Rico Electric Power Authority (“PREPA”) filed before the Puerto Rico Public Service Regulatory Board (“Energy Bureau”) a motion submitting for the Energy Bureau’s review a proposed agreement between PREPA and Yabucoa Energy, LLC (“Yabucoa Energy”) concerning the development and operation of the Yabucoa Energy project (the “Agreement”).

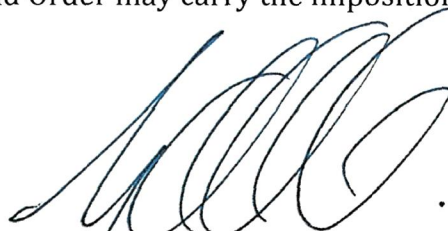

The Energy Bureau has conducted a preliminary review of the Agreement submitted by PREPA. Based on such review, the Energy Bureau finds that the Agreement is incomplete and does not contain sufficient information to permit the Energy Bureau to evaluate its terms and conditions. Specifically, the Energy Bureau notes that numerous provisions and appendices throughout the Agreement remain blank or otherwise lack the information necessary to determine the rights and obligations of the parties.

Accordingly, the Energy Bureau **ORDERS** PREPA to submit a complete version of the Agreement, with all missing information necessary to complete the document and allow the Energy Bureau to conduct its review. PREPA shall file the completed Agreement **within ten (10) days** from the notification of this Resolution and Order.

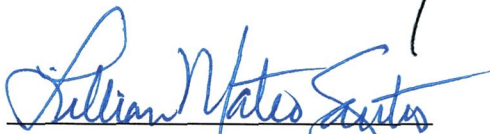

To facilitate PREPA’s compliance with this Order, the Energy Bureau includes **as Attachment A** of this Resolution and Order a list of the sections or appendices identified during the Energy Bureau’s review as incomplete or requiring additional information.

The Energy Bureau **WARNS** PREPA that, in accordance with Art. 6.36 of Act 57-2014, non-compliance with this Resolution and Order may carry the imposition of fines.

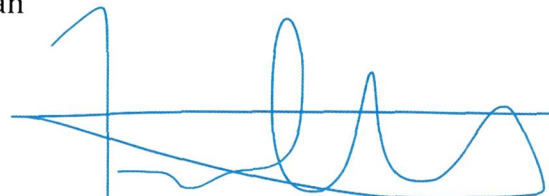

Be it notified and published.
