**IN RE: INTERCONNECTION
REGULATIONS**

CASE NO.: NEPR-MI-2019-0009 /
NEPR-MI-2018-0008

SUBJECT: Joint Motion Regarding the
Sequencing of Approval of the Technical
Interconnection Requirements

**JOINT MOTION REGARDING THE SEQUENCING OF APPROVAL OF THE
TECHNICAL INTERCONNECTION REQUIREMENTS**

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

COME NOW the Solar and Energy Storage Association of Puerto Rico (“SESA”), LUMA Energy LLC and LUMA Energy ServCo LLC (jointly, “LUMA”), and the Independent Consumer Protection Office (“OIPC”) (collectively, the “Joint Movants”), and respectfully state and request as follows:

1. The Resolution and Order entered and notified on July 13, 2026 (the “July 13 Order”) addresses both the ongoing proceeding for adoption of the interconnection regulation and the Technical Interconnection Requirements (“TIR”).

2. The interconnection regulation and the TIR are distinct instruments and, the Joint Movants understand, would benefit from being addressed sequentially. The Joint Movants respectfully submit that the process of revising and adopting the TIR should commence after a Resolution and Order approving the final version of the interconnection regulation is entered.

3. The Joint Movants respectfully request that the Energy Bureau vacate the August 11, 2026 deadline for LUMA to file the Revised Draft TIR. The Joint Movants further respectfully

request that the TIR be approved only after the Energy Bureau enters a Resolution and Order approving the final interconnection regulation and in accordance with the process set forth therein.

4. This limited request does not seek to establish the details of the TIR approval process or to modify the remaining procedural steps for consideration and adoption of the interconnection regulation.

WHEREFORE, Joint Movants respectfully request that the Energy Bureau: (i) take notice of the foregoing; (ii) vacate the August 11, 2026 deadline for LUMA to file the Revised Draft TIR; and (iii) provide that the TIR shall be approved after a Resolution and Order approving the final interconnection regulation is entered, in accordance with the process set forth therein.

RESPECTFULLY SUBMITTED.

In San Juan, Puerto Rico, this 27th day of July, 2026.
