GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU

IN RE: April 16, 2025, Bluesky Total Blackout Event	**CASE NO. NEPR-IN-2025-0003** **SUBJECT:** Informative Motion regarding Prior Compliance with Final Report Directive to Submit Public Version of Final Exponent Report

INFORMATIVE MOTION REGARDING PRIOR COMPLIANCE WITH FINAL REPORT DIRECTIVE TO SUBMIT PUBLIC VERSION OF FINAL EXPONENT REPORT

TO THE HONORABLE PUERTO RICO ENERGY BUREAU:

COME NOW LUMA Energy, LLC ("ManagementCo"), and **LUMA Energy Servco, LLC** ("ServCo") (jointly referred to as "LUMA"), through the undersigned counsel, and respectfully state and request the following:

1. In compliance with a Resolution and Order issued by the Puerto Rico Energy Bureau of the Public Service Regulatory Board ("Energy Bureau") on April 22, 2025, which started the referenced investigation, on June 16, 2025, LUMA filed a *Motion to Submit Report of Investigation* ("June 16th Motion"). As Exhibit 1, LUMA submitted a report prepared by Exponent concerning the investigation of an outage event that occurred on April 16, 2025 (the "Event"), titled "Line 50100 Outage Event, April 16, 2025 Root Cause Evaluation" and dated June 16, 2025 ("June 16th Exhibit 1"). As Exhibit 2, LUMA submitted the documents and information referenced in the June 16th Exhibit 1 ("June 16th Exhibit 2" and, together with the June 16th Exhibit 1, the "June 16th Exhibits 1 and 2"). While acknowledging that the June 16th Exhibits 1 and 2 were to remain confidential until the conclusion of the investigation, LUMA requested that they remain protected from disclosure during and after the conclusion of the Investigation because they

contained information protected from public disclosure pursuant to federal statutes and regulations, the Energy Bureau's Policy on Management of Confidential Information, CEPR-MI-2016-0009, issued on August 31, 2016, as amended by the Resolution dated September 16, 2016, and other applicable law. LUMA further indicated that it would be submitting a Memorandum of Law in support of such request accompanied by redacted/public versions of the June 16th Exhibits 1 and 2.

2. On July 7, 2025, LUMA filed its *Memorandum of Law in Support of Request for Confidential Treatment of Exhibits 1 and 2 Submitted on June 16, 2025* ("July 7th Motion"), stating the legal basis for treating the June 16th Exhibits 1 and 2 as confidential. As Exhibits B and C to the July 7th Motion, LUMA also submitted public/redacted versions of the June 16th Exhibits 1 and 2.

3. On September 8, 2026, the Energy Bureau issued a Resolution and Order addressing LUMA's confidentiality requests in the July 7th Motion ("September 8th Order"). The Energy Bureau directed LUMA to submit, within ten (10) days, corrected public versions of the June 16th Exhibits 1 and 2 consistent with its confidentiality determinations.

4. In compliance with the September 8th Order, on September 18, 2026, LUMA filed the *Motion Submitting Corrected Redacted Versions of the June 16th Exhibits 1 and 2 in Compliance with the September 8, 2026, Resolution and Order* ("September 18th Motion"). As **Exhibits A** and **B**, respectively, LUMA attached the corrected public versions of the June 16th Exhibits 1 and 2.

5. On September 21, 2026, the Energy Bureau issued its Final Report on the Event ("Final Report"). Among other things, the Final Report directed LUMA to submit, within ten (10)

days, a public version of the Final Exponent Report consistent with the confidentiality determinations in the September 8th Order.

6. LUMA hereby informs the Energy Bureau that LUMA has already submitted the public version of the Final Exponent Report consistent with the September 8th Order as required by the Final Report, in the form of Exhibit A to the September 18th Motion. Therefore, LUMA has satisfied the Energy Bureau's directive on this matter in the Final Report and no further action by LUMA is required.

WHEREFORE, LUMA respectfully requests that the Energy Bureau **take notice** of the aforementioned and that LUMA previously submitted the public version of the Final Exponent Report required under the Final Report, and **deem** LUMA **in compliance** with the September 8, 2026, Resolution and Order and the related directive in the Final Report.

RESPECTFULLY SUBMITTED.

In Guaynabo, Puerto Rico, this 1st day of October 2026.

We hereby certify that this motion was filed using the electronic filing system of this Energy Bureau.
