

**GOVERNMENT OF PUERTO RICO
PUBLIC SERVICE REGULATORY BOARD
PUERTO RICO ENERGY BUREAU**

IN RE: ELECTRIC SYSTEM PRIORITY
STABILIZATION PLAN

CASE NO.: NEPR-MI-2024-0005

SUBJECT: PREPA's Motion for Brief
Extension of Time to Comply with the
September 14, 2026, Resolution and Order.

RESOLUTION AND ORDER

On September 14, 2026, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("September 14 Resolution") directing the Puerto Rico Electric Power Authority ("PREPA") to supplement, on or before September 30, 2026, their responses to the Request of Information ("ROI") issued by the Energy Bureau in a prior Resolution and Order dated August 30, 2026 (August 30 Order"). Specifically, PREPA was directed to supplement its responses to ROIs 30, 32, and 33 of the August 30 Order with: (i) all correspondence and agreements requested therein, including the May 13, 2025, correspondence from NFE Power PR LLC; (ii) the correspondence relating to the award and cancellation of RFP 2024-0607; and (iii) the results of PREPA's inquiry to the Puerto Rico Public-Private Partnerships Authority ("P3A").

The Energy Bureau also ordered PREPA and Genera PR LLC ("Genera") to confer and jointly file, on or before September 30, 2026, a statement supported by the related correspondence identifying: (i) each written request made under the March 15, 2024 Side Letter, its date, the party that made it, and the units to which it referred; (ii) each major maintenance performed by the seller and the certification obtained; (iii) the number of major maintenance completions that remain available and whether the parties contend that they remain enforceable; and (iv) the status, participants, and subject of the negotiation with the Seller referenced in Genera's response to ROI 24(a).

On September 30, 2026, PREPA filed before the Energy Bureau a document titled *PREPA's Motion for Brief Extension of Time to Comply with the September 14, 2026 Resolution and Order* ("September 30 Motion"). In the September 30 Motion, PREPA states that it is currently finalizing its review of documents in its historical archives to confirm that it has identified all documents responsive to the Energy Bureau's directive. However, PREPA indicates that, even with their best efforts to complete within the given time frame, they will need a short extension of time to complete its review of the historical archive and request an extension of three (3) business days, until Monday, October 5, 2026, to complete its review and submit the supplemental documents required by the September 14 Resolution. Additionally, PREPA separately requests an extension of seven (7) business days, until Friday, October 9, 2026 to comply with the Energy Bureau's directive requiring PREPA and Genera to confer and jointly respond to the matters referenced above.

Upon review of the September 30 Motion, the Energy Bureau determines that PREPA has demonstrated good cause for the requested extension. Accordingly, the Energy Bureau **GRANTS** PREPA's request for an extension until **October 5, 2026**, to complete its review and submit the supplemental documents required by the September 14 Resolution, and an extension until October 9, 2026, to comply with the Energy Bureau's directive requiring PREPA and Genera to confer and jointly respond to the matters ordered in the September 14 Resolution.

The Energy Bureau **WARNS** PREPA and Genera that, in accordance with Art. 6.36 of Act 57-2014¹, non-compliance with this Resolution and Order may carry the imposition of fines.

¹ Known as the *Puerto Rico Energy Transformation and RELIEF Act*, as amended ("Act 57-2014").

Be it notified and published.
