RESOLUTION AND ORDER

I. Introduction

On July 13, 2026, the Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") issued a Resolution and Order ("July 13 Resolution") containing a *Draft Distributed Generation and Microgrid Interconnection Regulation* ("Revised Preliminary Draft"). Through the July 13 Resolution, the Energy Bureau invited all stakeholders to provide their comments and feedback on the Draft Regulation on or before August 14, 2026. The Energy Bureau also scheduled two Virtual Stakeholder Workshops for August 25, 2026, and September 21, 2026, to evaluate and address stakeholders' comments on Revised Preliminary Draft and seek consensus and solutions that are aligned with public policy. The Energy Bureau also indicated that agendas would be published before each workshop.

In accordance with the July 13 Resolution, the Energy Bureau held the Virtual Stakeholder Workshop on August 25, 2026, which continued for a second day on August 28, 2026.

On September 15, 2026, the Energy Bureau issued a Resolution and Order ("September 15 Resolution") containing the agenda for the September 21, 2026, Virtual Stakeholder Workshop ("September 21 Workshop") and provided a rulemaking schedule with preliminary dates for the Second Draft of the Interconnection Regulation ("Second Draft"), public comment opportunities, and the fourth stakeholder workshop. On September 16, 2026, the Energy Bureau issued a Resolution and Order ("September 16 Resolution") with draft language on Meter Socket Adapters and revised language on the Simplified Interconnection Process. On September 21, 2026, the Energy Bureau held the second Virtual Stakeholder Workshop.

After further consideration, the Energy Bureau determines that it is in the best interest of the rulemaking process to move the date of the fourth stakeholder workshop to earlier in October. The Energy Bureau therefore schedules a hybrid Stakeholder Workshop on October 23, 2026, at 9:30 a.m. The hybrid Stakeholder Workshop will be held in person¹ and on the Microsoft Teams platform to facilitate broad participation.
