IN RE: REVIEW OF GENERA PR, LLC  
REQUEST TO OPERATE PALO SECO MP  
AND MAYAGUEZ CT WITH NATURAL  
GAS AS PRIMARY FUEL

**Case No.:** NEPR-MI-2024-0004

**Subject:** Motion to Submit Status Report in  
Compliance with Resolution and Order Dated  
September 30, 2026

**MOTION TO SUBMIT STATUS REPORT IN COMPLIANCE WITH RESOLUTION  
AND ORDER DATED SEPTEMBER 30, 2026**

**TO THE HONORABLE PUERTO RICO ENERGY BUREAU:**

**COMES NOW GENERA PR LLC** (“Genera”), as agent of the Puerto Rico Electric Power Authority (“PREPA”),<sup>1</sup> through its counsel of record, and respectfully submits and prays as follows:

1. On September 30, 2026, the Energy Bureau issued a Resolution and Order (“September 30 Order”) concerning the four (4) Pratt & Whitney FT8 Swift Pac units located at the Mayagüez Power Plant. Therein, the Energy Bureau referenced LUMA’s Monthly Generation Performance Report published on September 15, 2026, which indicates that the Mayagüez Power Plant has had an average availability rate below forty percent (40%).

2. In light of the foregoing, the Energy Bureau ordered Genera to file, within five (5) business days from notification of the September 30 Order, a status report identifying, describing, and explaining, as applicable: (i) the actions undertaken by Genera to repair the Mayagüez CT units, including any procurement and quotations obtained from supplier representatives, the

---

<sup>1</sup> Pursuant to the *Puerto Rico Thermal Generation Facilities Operation and Maintenance Agreement* (“LGA OMA”), dated January 24, 2023, executed by and among PREPA, the Puerto Rico Public-Private Partnerships Authority and Genera, Genera is the sole operator and administrator of the Legacy Generation Assets (as defined in the LGA OMA) the sole entity authorized to represent PREPA before the Energy Bureau with respect to any matter related to the performance of any of the O&M Services (as defined in the LGA OMA) provided by Genera under the LGA OMA.

manufacturer, or third-party vendors; **(ii)** any evaluation of the procurement process undertaken by Genera, the conclusions reached regarding any quotations received, and, if no such evaluation has been undertaken, the reasons therefor; **(iii)** any and all communications between Genera and supplier representatives and/or the manufacturer of the Pratt & Whitney FT8 Swift Pac units; and **(iv)** any agreement of exclusive representation in Puerto Rico by the manufacturer, if such supplier representative is being used.

3. In compliance with the September 30 Order, Genera provides below its responses to each of the four (4) items identified by the Energy Bureau, together with the supporting documentation.

4. With respect to item (i), Genera has been required to contract with ARG Precision Corp. (“ARG Precision”) as the exclusive representative of Pratt & Whitney/Mitsubishi for the procurement of the services required for the relevant units. In support thereof, Genera submits as **Exhibit A** the quotations received from ARG Precision concerning the relevant Mayagüez units.

5. Notwithstanding the foregoing, in an effort to achieve cost savings and maximize the use of ratepayers and federal funds, Genera has attempted to communicate directly with Mitsubishi Power Aero LLC (“Mitsubishi”) regarding the procurement of the required services. These efforts, however, have been unsuccessful. Genera has also identified suppliers outside Puerto Rico that may be capable of performing the required work and is currently awaiting an additional quotation from such suppliers, which will be submitted to the Energy Bureau promptly upon receipt.

6. With respect to item (ii), Genera has been unable to obtain quotations directly from Mitsubishi, as Genera has been referred to ARG Precision, for purposes of obtaining such quotations. Nevertheless, as stated above, Genera has identified suppliers outside Puerto Rico that

may be capable of performing the required work and is currently awaiting an additional quotation from such suppliers. Accordingly, Genera's evaluation of the available procurement alternatives remains ongoing pending receipt of the additional quotation. The relevant communication with Mitsubishi concerning this matter is included as part of **Exhibit B**.

7. With respect to item (iii), Genera submits as **Exhibit B** the communications between Genera, Mitsubishi and ARG Precision concerning the Pratt & Whitney FT8 Swift Pac units and the procurement and performance of the corresponding services.

8. Finally, with respect to item (iv), Genera submits as **Exhibit C** the letter issued by Mitsubishi regarding ARG Precision's exclusive representation. As reflected therein, Mitsubishi informed Genera that it would only support ARG Precision as authorized representative in Puerto Rico for the execution of the relevant work.

9. Accordingly, Genera respectfully submits that the information provided herein, together with the supporting documentation submitted as **Exhibits A through C**, addresses the information requested by the Energy Bureau in the September 30 Order.

10. Lastly, Genera respectfully requests confidential treatment of the information and documentation submitted as Exhibits A through C to this Motion. In accordance with the applicable legal and regulatory framework, Genera will submit a separate memorandum of law in support of its request for confidential treatment of Exhibits A through C.

**WHEREFORE**, Genera respectfully requests that the Energy Bureau **take notice** of the foregoing, **accept** the Status Report and supporting documentation submitted herein as Exhibits A through C, and **deem** Genera in compliance with the September 30 Order.

**RESPECTFULLY SUBMITTED.**

In San Juan, Puerto Rico, this 7th day of October 2026.
