IN RE: PUERTO RICO ELECTRIC
POWER AUTHORITY'S PERMANENT
RATE

CASE NO.: NEPR-MI-2020-0001

SUBJECT: NFEnergía LLC's reading of the
September 30 and October 4, 2026 Resolutions
and Orders.

RESOLUTION AND ORDER

The Energy Bureau of the Puerto Rico Public Service Regulatory Board ("Energy Bureau") **REAFFIRMS** its September 30 and October 4, 2026 Resolutions and Orders.

On October 10, 2026, NFEnergía LLC ("NFEnergía") submitted a special and limited appearance and informative motion concerning the Resolutions and Orders issued by the Energy on September 30 and October 4, 2026 ("October 10 Motion"). NFEnergía sets forth its reading of those Resolutions and Orders in Part III of the October 10 Motion and requests a technical conference.

Upon consideration of the October 10 Motion, the Energy Bureau **DETERMINES** that the reading set forth by NFEnergía in paragraph 8 is consistent with the September 30 and October 4, 2026 Resolutions and Orders. Those Resolutions and Orders do not, by themselves, direct the Puerto Rico Electric Power Authority ("PREPA"), or Genera PR, LLC acting on its behalf, to refrain from paying, or to withhold payment of, NFEnergía's invoices for natural gas delivered under the natural gas sale and purchase agreement between PREPA and NFEnergía ("Contract"). Any deduction, offset, or withholding requires the corresponding evaluation and must proceed through the applicable legal and contractual mechanisms, without replacing the pertinent contractual procedures.

The Energy Bureau also **DETERMINES** the English rendering set forth in paragraph 6 of the October 10 Motion as accurately reflecting the meaning of the language of the October 4, 2026 Resolution and Order reproduced in paragraph 5 of that motion. The directive encompasses amounts that, pursuant to the corresponding evaluation, may be deducted, offset, or withheld through the applicable legal and contractual mechanisms. Its implementation requires that evaluation and does not authorize an indiscriminate withholding of payments or replace the pertinent contractual procedures.

As stated in the October 4, 2026 Resolution and Order, the amount identified does not constitute a determination of liability or a definitive quantification of recoverable amounts. The contractual obligations of the parties remain unmodified by these determinations.

The Energy Bureau **TAKES NOTICE** of NFEnergía's stated willingness to continue supplying natural gas under the Contract. The request for a technical conference remains pending for separate disposition. This

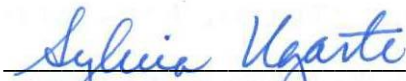

Resolution and Order does not adjudicate NFEnergía's assertions concerning its status or the Energy Bureau's jurisdiction over it, or its stated reservations of rights, defenses, and remedies.

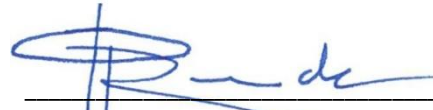

Be it notified and published.
